Learn About:

Retaining and attracting youth can be a challenge for rural communities, with employment opportunities being a key factor. In this webinar, you'll learn some of the ways communities can drive youth entrepreneurship and foster the next generation of business owners.

Hear from two organizations that support young entrepreneurs, ranging from elementary school all the way to 39 years young. You'll also hear two young entrepreneurs share their stories of success, and what Junior Achievement BC and Futurpreneur has done to help them realize their business dreams in their home community.

There will be plenty of opportunity for questions of our panelists - come prepared for an engaging dialogue.
