New Learning Management System (LMS)

We are excited to announce that we will be launching a new learning management system on August 29 to manage our seminar registrations. Participants will now sign up for their own learning account where they can register for seminars and view all their past certificates directly from their learning accounts. One highly anticipated feature is that seminar registration will now be completed in a single step! Additionally, the EAO is now using the Zoom platform for all of our virtual seminar sessions. Please remember that if you want to attend one of our virtual or in-person seminars you must register prior to the start of the session.
