Investigations

WorkSafeBC is now using the old reference for the Employer Incident Investigation Report (EIIR), [52E40](#).

Also, we have had a few inquiries as to who is responsible for completing a workplace investigation when a worker is injured on another employer's worksite. WorkSafeBC is contemplating providing some direction on this issue. However, in the interim, the best answer is: both the owner and the worker's employer have this obligation. For more information, please contact our office.
