RE: Amendment to Pollution Abatement Order #108387

Further to the July 18, 2016 amendment letter, I understand that inclement weather has prohibited the harvest of your corn crops, and therefore delayed soil sampling and analysis for the Post Harvest Nitrate Study. The purpose of this letter is to provide the following Order amendments (shown in bold underline as appropriate):

- 1) Requirement 3: Submit the Environmental Impact Assessment together with the results of the comprehensive monitoring program to the Director by **November 30, 2016**.
- 2) Requirement 4: Remains unchanged with the exception of the statement: "Retain a Qualified Professional to prepare an Action Plan detailing measures to be taken to abate the environmental impacts identified in the EIA and submit the Action Plan to the Director by **December 30, 2016**."

All other terms and conditions of the Pollution Abatement Order #108387 issued to H.S. Jansen and Sons Farm Ltd. remains in effect.

If you have any questions with regard to this amendment, please contact me at 250-356-8185, or Devan Oldfield at 250-490-2222.

Sincerely,

Christa Zacharias-Homer
for Director, *Environmental Management Act*
