January 3, 2014

R/825/2013/86

## SCHEDULE

***1*** ***Schedule 5 of the Contaminated Sites Regulation, B.C. Reg. 375/96, is amended in the table for lead***

***(a) by repealing the row respecting "Intake of contaminated soil" and substituting the following:***

Intake of contaminated soil	400	400	400	700	4 000	3,4
-----------------------------	-----	-----	-----	-----	-------	-----

***, and***

***(b) by repealing Note 4 and substituting the following:***

4. Standards have been derived based on results of clinical studies at sites. Standards represent the rounded sum of the toxicologically-based value plus the applicable soil ingestion clinical study factor, if one is available. For AL, PL and RL, the soil ingestion clinical study factor is 385 µg/g. For CL, the soil ingestion clinical study factor is 650 µg/g. For IL, no soil ingestion clinical study factor is available, therefore the IL standard was set equal to the toxicologically-based value.
