BANK PROTECTION - REPAIRS

NOTES
For Notes Material legend and legend see 4770 - 4 - 5
For location of sections see 4795 - 4 - 4
GENERAL NOTES - MECHANICAL

1. All pump stations will be designed to allow withdrawal of pump columns and allow for a minimum clearance, all around.

2. A list of all pumps will be supplied by others for each particular pump.

3. The elevation of each pump will be determined by the NRC.

4. The NRC will determine the required pump column length.

5. The drainage pump support plates supplied by others will determine the dimensions of support frames.

6. Contractor to verify by contract, on receipt of drainage pump support dimensions.

For additional notes, see 4795-4-54.
TYPICAL PUMP STARTER CONNECTIONS

GENERAL NOTES:
