

Surface Water Allocated for Consumptive Use by Sector

Sector: Consumptive	Annual Allocated Volume (cubic decametres)	Authorizations (by licence)
Agriculture	1,385,649	16,704
Domestic	33,611	24,278
Industrial and Commercial	1,895,995	1,287
Mining and Petroleum	99,982	80
Waterworks	1,796,019	1,593
Total	5,211,255	43,942
Storage (non-waterpower - not graphed)	1,273,000	2,574
Note: assumption made that these storage authorizations primarily support irrigation and waterworks which are consumptive		
Total	6,484,255	46,516

Surface Water Allocated for Non-consumptive Use by Sector

Sector: Non-consumptive	Annual Allocated Volume (cubic decametres)	Authorizations (by licence)
Agriculture	181,200	261
Aquaculture (fish hatchery)	384,800	27
Conservation and Land Improvement *	8,642,800	1,861
Industrial and Commercial *	205,116	217
Mining and Petroleum	25,350	50
Domestic	171	9
Total	9,439,437	2,425
Waterpower (not graphed)	592,908,100	611
Storage (waterpower - not graphed)	98,276,050	85
Total	700,623,587	3,121

* Notes

Conservation and Land Improvement also contains 525 authorizations for the total flow of the source of water supply; as these volumes are not recorded in the database they are not included in this estimate. Industrial and Commercial also contains 57 total flow authorizations which are not included in this estimate.
