

REGISTER OF WELL PUMP INSTALLERS

in the Province of British Columbia

Pursuant to Part 2, Section 7 of the *Groundwater Protection Regulation*, the Comptroller must establish and maintain a register of well pump installers who are authorized to operate in British Columbia. The list of well pump installers whose names are in the Register, must be made available to the public during normal business hours, or be posted on a publicly available website. A person wishing to be recognized as a well pump installer in British Columbia and wanting to be listed in the Register may apply to the Comptroller pursuant to Section 8 of the *Groundwater Protection Regulation*.

Pursuant to Section 14 of the *Groundwater Protection Regulation*, a registered well pump installer is qualified in respect of decommissioning or deactivating any class of well.

Pursuant to Section 14 of the *Groundwater Protection Regulation*, a registered well pump installer is qualified in respect of installing, maintaining, repairing, removing or testing a well pump or a well head in; qualified in respect of conducting a flow test of a well, qualified in respect of disinfecting a well pump; qualified in respect of disinfecting a well.

Well Pump Installers - Verification of Contact Information Required

The Comptroller **must remove from the Register** of well pump installers any person who:

- fails to meet a requirement for registration,
- fails to maintain a requirement for registration, including any requirement for maintaining a certificate issued by another province or territory of Canada,
- is no longer actively working in Canada as a well pump installer.

A person listed as a well pump installer in this Register **must advise** the Comptroller in writing **within 60 days of any changes** to the information included in the Register or if they are no longer actively working in Canada as a well pump installer.

By listing persons as well pump installer in this Register, the Province of British Columbia in no way guarantees, or may be held liable, for any work performed by the person.

The pump installers listed in this Register are sorted by alphabetical order within each Region and this in no way reflects any order of preference, special favour or any other bias on behalf of the Province of British Columbia.

The person whose name appears in this Register should, in the course of their duties as a well pump installer in British Columbia, **carry with them the well pump installer identification card** issued to them by the Comptroller and must **present it upon request** to the Comptroller, the Regional Water Manager, an Engineer or an Officer under the *Water Sustainability Act*, or a Drinking Water Officer under the *Drinking Water Protection Act*, as proof of their qualifications as a well pump installer pursuant to Section 51 of the *Water Sustainability Act*.

*‘Certificate issued by’: Explanation of abbreviations

Province of BC: Certificate issued by the Industry Training Authority or the Advanced Education Ministry of the Province of BC

CGWA : Certificate issued by the Canadian Ground Water Association

N/A – grand-fathered: Not applicable. Well pump installers with this designation were registered under the grand-parenting provision of the former Ground Water Protection Regulation (2004). That provision allowed pump installers to be registered at the discretion of the Deputy Comptroller of Water Rights, based on proof of experience.
