

Domestic Well Registration Form

This form is intended for registering groundwater wells that are used for domestic water use purpose only. Domestic use of groundwater is exempt from the requirement for obtaining a water license or use approval and paying provincial fees and rentals. Registering your well creates a record of the location of your well and your water use. It helps to ensure that your use is considered by decision makers when dealing with other licence applications.

Domestic purpose is defined in [Section 2 of the Water Sustainability Act](#) as water used for the occupants of a private residence for household uses (e.g., not a multi-family apartment building, hotel, strata or cooperative building) including: drinking water, food preparation, sanitation, fire prevention, water for animals kept for household use or as pets, or irrigation of a garden not exceeding 1000m².

If unsure whether your use is considered to be domestic purpose, or to start your licence application if the well is used for any other purpose, please visit www.groundwater.gov.bc.ca.
