# Carbon Neutral Action Report Vancouver Community College

#### **Executive Summary**

Vancouver Community College is pleased to be submitting its Carbon Neutral Action Report to the Government of British Columbia. The college applauds the Province for taking the initiative to reduce Greenhouse Gas Emissions and is looking forward to working with Government further in this regard.

At the board level, the VCC board of directors requested progress reports from management with respect to conservation and sustainability efforts. This request lead the college to include it as part of its formal reporting tool presented to the board on a quarterly basis.

At the executive level, the College put in place an executive advisory group on campus sustainability. This group has taken on the task of providing advice to college administration on issues and initiatives related to conservation and sustainability. It's membership includes a cross section of stakeholders, including students, faculty staff, management and volunteers. This group is also responsible for providing policy advice to management on related issues.

College-wide initiatives are outlined in the following report. Notable achievements included the installation of energy-efficient hot water tanks at the college's new building at the Broadway campus, participating in the BC Hydro Power Smart Partner Program, Providing employees with alternative transportation options, and beginning an energy efficient lighting retrofit project.

### **Objectives**

Educating automotive students about alternative fuels. Ensuring anti-freeze and oil products are recycled and using environmentally friendly de-greasers and hand cleaners. Replacing water faucets with low flow types. Preserving habitat and species by increasing landscaped area's within all campus grounds. Participating in an effective recycling program. Committing to a campus wide tobacco free environment in participation with Fraser Health using posters designed by VCC Graphic Arts students and by implementing a VCC smoke-free policy in 2008. Adapting purchasing practices which utilize environment friendly renewable/re-usable materials such as all paper products, janitorial cleaning products and re-cycled paper plates.

## Part 1: Actions Taken to Reduce Greenhouse Gas Emissions in 2008

#### Overview

- Re-lighting retrofit.
- Installing energy efficient hot water tanks.
- Installing Direct Digital Controls (DDC's.)
- Participating in the BC Hydro Power Smart Partner Program.
- Replacing standard motors with variable speed motors.
- Upgrading air compressors to higher efficiency types.
- Encourage alternate means of transportation such as providing Translink financial initiatives and Zip Car locations.
- Replacing exterior glazing with more energy efficient glazing.

1.1 Mobile Fuel Combustion			
	propane, gasol vehicle use, co	ine) consumption by a vehicle or other mobile of	ct emissions from fuel (natural gas, ethanol blends, diesel, combustion source. Note that any actions related to personal active transportation in the community should be included in
Action	Action Taken	Outcome/Performance Measure	Notes Clarifying Action Taken
Encouraged use of public transit/active transportation	Completed	Record the number of staff participating in the "Translink" fare reduction initiative provided by VCC. Provide 2 parking lot spaces for the use of "Zip" cars as an alternative to owning a personal vehicle.	
Encouraged alternatives to travel in fleet vehicles – bicycles, scooters, electric carts	Completed	Installed approximately 75 new bicycle security racks in 2008	
Established travel reduction goals	Completed	Can be measured by the significant reduction in the annual budget for travel to conferences and training courses in 2008.	
1.2 Stationary fuel combustion and elect	ricity		
Action	Action Taken	Outcome/Performance Measure	Notes Clarifying Action Taken
Replaced # computers with EnergyStar models	Completed	Measured by the number of PC's and monitors replaced by the IT Dep't in 2008.	Approximately 250 units were replaced in 2008.
Turned off lights in unused rooms	Completed	Routinely enforced by 100% of all faculty staff and maintenance/janitorial staff in 2008.	
Replaced Refrigerators (EnergyStar rated appliance)	Completed	A gradual replacement ( 6 units in 2008) to more energy efficient types where financially feasible, occurred in 2 cafeteria kitchens and 20 Culinary Arts student training kitchens.	
Installed multi-function devices (and removed stand-alone printers/faxes)	Completed	Several stand alone office printers and faxes were fazed out in 2008 and replaced by multi functional copying, faxing and scanning devices.	
Replaced standard bulbs with CFLs	Completed	This was practiced in 2008 in both campuses where economically feasible	
Installed motion activated lights	In progress	Ongoing introduction of motion detectors to control lighting in un-occupied area's only where economically feasible was in place in 2008.	

Lindouteless lighting vetuelit			
Undertaken lighting retrofit	In progress	Re-lighting retrofit project for the Broadway	
		campus using more energy efficient equipment,	
		T8's, electronic ballasts, occupation sensors &	
		LED emergency exit lights. Feasibility studies,	
		budget approval and project tenders were	
		initiated in 2008 with the actual project	
		commencing in 2009.	
Implemented server virtualization	Completed	Implementation of VM Ware to consolidate	
	Completed	servers.	
Utilized desk-top power management settings on computer	In Progress	Implementation of Power Save tools.	
Initiated corporate computer shut-down/wake-up for	In progress	Re-lighting retrofit for the entire campus using	
maintenance		more energy efficient equipment, T8's,	
		electronic ballasts, occupation sensors & LED	
		emergency exit lights. Feasibility studies, budget	
		approval and project tenders were initiated in	
		2008 with the actual project commencing in	
		2009.	
		Installing energy efficient hot water tanks.	
		Feasibility studies, budget approval and project	
		tenders were initiated in 2008 with the actual	
		project commencing in 2009.	
Initiated or completed a building energy retrofit	In progress	An energy audit was completed in 2007 and as a	
	h 10 111	result, several energy saving capital projects	
		have been completed since and some are in	
		progress.	
1.3 Supplies			
Action	Action Taken	Outcome/Performance Measure	Notes Clarifying Action Taken
Initiated automatic double sided printing	Completed	All photo copiers campus wide have been set up	
		for double sided printing by 2008.	
Used collaborative software to edit on-line	In Progress	Implementation of SharePoint for document	
		sharing and editing.	
Restructured a process to use less paper	In Progress	Less paper purchased from 2008 to 2009.	Previously used approximately 5000 sheets and
	_	Implemented a pay per print program in the	now down to 500 sheets per month.
		Library and Learning Centre. Reduction of	·
		approximately 90% of consumable costs (paper,	
		toner).	
1.4 Travel			
Action	Action Taken	Outcome/Performance Measure	Notes Clarifying Action Taken
Installed Video Conferencing facilities	In Progress	Looking at software solutions	
1.5 Employee Engagement			
Action	Action Taken	Outcome/Performance Measure	Notes Clarifying Action Taken
Provided climate change education	In Progress	College to host a campus sustainability fair in	
		April 2009.	

Provided conservation education	In progress	All automotive students receive ongoing		
		training on how they can ensure autos are run to	)	
		the highest fuel efficiency.		
Developed Green Teams	Completed	Executive Advisory Group in place.		
Supported Green Teams (resources)	Completed	College support to various green initiatives for		
		example the sustainability fair		
Supported professional development	Completed	Employees supported to attend green events as		
		part of their PD		
1.6 Sustainability Actions (others)				
Action	Action Taken	Outcome/Performance Measure	Notes Clarifying Action Taken	
Took water conservation measures – low flow showers or	Completed	Measured by the number of low flow water	, 3	
toilets, fix leaks	·	faucets installed campus wide in 2008 (Nine		
		faucets as well as 6 toilets)		
Lload groon (love a points)	0 1 1	<u> </u>		
Used green (low-e paints)	Completed	Contractor using low VOC water based paints		
Part 2: Plans to Continue Reducing Gre	enhouse Gas E	missions 2009 2011		
Overview	Moving forward,	the college will look to take action on a number of	items in the near term. On the capital s	ide, with support from the
	Provincial govern	ment, the college will be replacing 2 existing main	n hot water boilers and 2 chillers with er	nergy efficient equipment. It will
	also be replacing	exterior glazing, while completing the re-lighting r	etrofit project. The college will be focusi	ing on a number of campus
