List the top three actions taken by your organization in 2013 to reduce GHG emissions and/or improve sustainability

Action
1. Increased staff awareness regarding turning off lights.
2. Investigated building automation to control lights and temperature controls
3. Continued replacing old equipment with energy star or high efficient.

Describe Plans your organization has for continuing to minimize your GHG emissions

We are continuing to work with Fortis BC on ways to reduce greenhouse gases. Currently we are working to be a pilot site for Ozone laundry system. This reduces the need for hot water and shortens the wash and drying cycling by utilizing ozone to replace chemicals.
