

2015 CARBON NEUTRAL ACTION REPORT – SMALL EMITTERS FORM

DUE: May 31, 2016

This form is for the use of BC Public Sector Organizations whose GHG emissions were less than 600 tonnes CO₂e during the previous reporting year. Please fill in the required information below.

Organization Name:

Mount St. Mary Hospital

Contact name:

Tom Wilson

GHG Emissions and Offsets for 2015 (TCO2E)	
GHG Emissions created in Calendar Year 2015 (from SMARTTool Homepage):	
Total Emissions (tCO ₂ e)	335.31
Total Offsets (tCO ₂ e)	335.31
Adjustments to GHG Emissions Reported in Prior Years (from SMARTTool Homepage):	
Total Emissions (tCO ₂ e)	0
Total Offsets (tCO ₂ e)	0
Grand Total Offsets for the 2015 Reporting Year (from SMARTTool Homepage): (This is the total emissions that must be offset for Reporting Year 2015)	
Grand Total Offsets (tCO ₂ e)	335.31

To enable comparisons with all B.C. public sector organizations, please provide the following data for your organization:

- How many Full Time Equivalent (FTE) employees were part of your organization as of Dec 31, 2015? 166
- Crowns & Health Authorities only: What was the total amount of floor space (m²) in your organization (including occupied and unoccupied space, owned or leased) as of Dec 31, 2015: 13000 (m²)
- What was the primary use of that space (office, education, warehousing, health services, lodging, arts and recreation, other)? Complex Care facility.
- How many motor vehicles did your organization own or lease as of Dec 31, 2015? 2

List the top three actions taken by your organization in 2015 to reduce GHG emissions and/or improve sustainability:

Action
1. Another warmer than normal fall and winter enabled us to keep boilers on low-fire for an extended period of time.
2. Continued to replace light ballasts with energy-efficient ones and removed some ballasts from multi-light fixtures.
3.

Describe plans your organization has for continuing to minimize your GHG emissions:

Proceeded with plans to upgrade our building management system. This system controls everything from the air-handling units, exhaust fans, reheat coils, and relief dampers, to boiler and pump control, including the domestic hot water system. Through the system, we will be able to better monitor performance to make sure that we are not using more energy than required. It also governs heating and cooling systems and ensures they run efficiently.

Describe any actions your organization took during 2015 to strengthen its ability to manage the likely effects of climate change in the coming years and decades (e.g., have assessed whether increased frequency of extreme weather events and/or long term changes in climate will affect your organization's infrastructure, its employees and/or its clients.)

No further actions were taken during 2015.

Retirement of Offsets:

In accordance with the requirements of the Greenhouse Gas Reduction Targets Act and Carbon Neutral Government Regulation, Mount St. Mary Hospital (the Organization) is responsible for arranging for the retirement of the offsets obligation reported above for the 2015 calendar year, together with any adjustments reported for past calendar years. The Organization hereby agrees that, in exchange for the Ministry of Environment ensuring that these offsets are retired on the Organization's behalf, the Organization will pay the associated invoice to be issued by the Ministry in an amount equal to \$25 per tonne of offsets retired on its behalf plus GST.

Executive Sign-off

Name: Sara John Fowler Title: Chief Executive Officer
(print) _____

Signature:  Date: May 12, 2016

Mount St. Mary Hospital Greenhouse Gas Emissions by Source for the 2015 Calendar Year (tCO₂e*)

Total Emissions: 335

- Mobile Fuel Combustion (Fleet and other mobile equipment)
- Stationary Fuel Combustion (Building Heating and Generators) and Electricity
- Supplies (Paper)

Offsets Applied to Become Carbon Neutral in 2015 (Generated May 25, 2016 9:35 AM)

Total offsets required: **335**. Total offset investment: **\$8,375**. Emissions which do not require offsets: **0** **

*Tonnes of carbon dioxide equivalent (tCO₂e) is a standard unit of measure in which all types of greenhouse gases are expressed based on their global warming potential relative to carbon dioxide.

** Under the *Carbon Neutral Government Regulation of the Greenhouse Gas Reduction Targets Act*, all emissions from the sources listed above must be reported. As outlined in the regulation, some emissions do not require offsets.
