

2017 CARBON NEUTRAL ACTION REPORT – SMALL EMITTERS FORM

DUE: May 31, 2018

This form is for the use of BC Public Sector Organizations whose GHG emissions were less than 600 tonnes CO₂e during the previous reporting year (2017). Please fill in the required information below.

Organization Name:

Mount St. Mary Hospital

Contact name:

Tom Wilson

GHG Emissions and Offsets for 2017 (tCO₂e)	
GHG Emissions created in Calendar Year 2017 (from SMARTTool Homepage):	
Total Emissions (tCO ₂ e)	472.23
Total Offsets (tCO ₂ e)	472.23
Adjustments to GHG Emissions Reported in Prior Years (from SMARTTool Homepage):	
Total Emissions (tCO ₂ e)	0
Total Offsets (tCO ₂ e)	0
Grand Total Offsets for the 2017 Reporting Year (from SMARTTool Homepage): (This is the total emissions that must be offset for Reporting Year 2017)	
Grand Total Offsets (tCO ₂ e)	472.23

To enable comparisons with all B.C. public sector organizations, please provide the following data for your organization:

1. How many Full Time Equivalent (FTE) employees were part of your organization as of Dec 31, 2017? 166
2. What was the total amount of floor space (m²) in your organization (including occupied and unoccupied space, owned or leased) as of Dec 31, 2017: 13,000 (m²)
3. What was the primary use of that space (office, education, warehousing, health services, lodging, arts and recreation, other)? Complex Care facility
4. How many motor vehicles did your organization own or lease as of Dec 31, 2017? 2

Briefly describe the top three actions taken by your organization in 2017 to reduce GHG emissions and/or improve sustainability from its operations:

Action
1. For the second year in a row, we experienced a colder than normal Fall and Winter. This did not enable us to run the boilers on low-fire for any extended periods of time. Consequently, our higher natural gas usage resulted in an increase in total emissions.
2. We investigated the possibility of converting some of the lighting fixtures to LED. A decision has not been made to move forward on this initiative.
3. Attended Public Sector Climate Leadership Symposium. Received information about energy saving incentives and programs.

Briefly describe plans your organization has for continuing to reduce your GHG emissions in future years:

Discussions have been arranged with engineering consultants to look at possibility of replacing the existing older boilers with new, high efficient ones.

Describe any actions your organization took during 2017 to strengthen its ability to manage the likely effects of climate change in the coming years and decades (e.g., have assessed whether increased frequency of extreme weather events and/or long term changes in climate will affect your organization's infrastructure, its employees and/or its clients.)

No further actions were taken during 2017.
--

Retirement of Offsets:

In accordance with the requirements of the *Greenhouse Gas Reduction Targets Act* and Carbon Neutral Government Regulation, *Mount St. Mary Hospital* (the Organization) is responsible for arranging for the retirement of the offsets obligation reported above for the 2017 calendar year, together with any adjustments reported for past calendar years. The Organization hereby agrees that, in exchange for the Ministry of Environment and Climate Change Strategy ensuring that these offsets are retired on the Organization's behalf, the Organization will pay the associated invoice to be issued by the Ministry in an amount equal to \$25 per tonne of offsets retired on its behalf plus GST.
