

SMALL EMITTERS FORM [TEMPLATE]

A. Please fill in the required information below

Organization Name:

St. Michael's Centre Hospital Society

Contact name & title:

Arif Padamshi

St. Michael's Centre Hospital Society GHG Emissions and Offsets for 2020

As per the Directive issued March 31, 2021, each PSO will use their 2019 GHG Emissions as a placeholder for the purposes of their 2020 CNAR.

[See the Appendix for instructions on how to complete this table by accessing your 2019 emissions data from the Clean Government Reporting Tool (CGRT).]

Total Emissions (tCO ₂ e)	339
Total BioCO ₂	0
Total Offsets (tCO ₂ e)	339
Offset Investment (\$25 per tCO ₂ e) <i>[Total Offsets x \$25/tCO₂e]</i>	\$8,475

B. To enable comparisons with all B.C. public sector organizations, please provide the following data for your organization:

- How many Full Time Equivalent (FTE) employees were part of your organization as of December 31, 2020? 157
- What was the total amount of floorspace (m²) in your organization (including occupied and unoccupied space, owned or leased) as of December 31, 2020? 4,149 (m²)
- What was the primary use of that space (office, education, warehousing, health services, lodging, arts and recreation, other)? Health Services

4. How many motor vehicles did your organization own or lease as of December 31, 2020? ___One___

2

C. Briefly describe the top three actions taken by your organization in 2019 to reduce GHG emissions and/or improve sustainability from its operations:

Action
1. Recycling all renewable waste.
2. Turn off monitors and lights when not in use.
3. Identify entry points and remedy to eliminate drafts.

D. Briefly describe plans your organization has for continuing to reduce your GHG emissions in future years:

Communicate to all staff the importance of conserving energy whenever possible through turning off lights from the last person leaving a room and leaving the shades down at night to conserve heat. Also encourage all staff to recycle as much as possible.

E. Describe any actions your organization took during 2019 to strengthen its ability to manage the likely effects of climate change in the coming years and decades (e.g., have assessed whether increased frequency of extreme weather events and/or long-term changes in climate will affect your organization's infrastructure, its employees and/or its clients.)

Did not consider any effects on climate change in the coming years.
