

# Mount St Mary Hospital 2024 PSO Climate Change Accountability Report

**Title:** 2024 PSO Climate Change Accountability Report

**Organization:** Mount St Mary Hospital

## PART 1. Legislative Reporting Requirements

**Declaration statement:** This PSO Climate Change Accountability Report for the period January 1, 2024 to December 31, 2024 summarizes our greenhouse gas (GHG) emissions profile, the total offsets to reach net-zero emissions, the actions we have taken in 2024 to minimize our GHG emissions, and our plans to continue reducing emissions in 2025 and beyond.

### Emission Reductions: Actions & Plans

#### A. Stationary Sources (e.g., buildings, power generation)

In 2024, we completed the following projects to reduce emissions:

- Lighting upgrade to replace fluorescent lights with LED lights on the ground, second and third floors of the facility
- Continuation of controls upgrade to include additional AHU's and remaining boiler points

Plans for 2025:

- Continuation of controls upgrades

#### B. Mobile Sources (e.g., fleet vehicles, off-road/portable equipment)

We have one resident bus within our fleet which is used exclusively for resident outings. The bus is utilized once a week for outings so has limited usage throughout the year. We do not have plans to change or upgrade the bus at this time.

We have been researching EV charges for our staff parking areas for a number of years now but due to financial constraints, have not been able to move forward with this initiative. We do not foresee this changing in the coming year.

#### C. Paper Consumption

In 2024, we implemented EMAR, reducing down the use of paper record keeping. We also introduced an electronic housekeeping audit system, again reducing down paper usage.

For 2025, we will be working on a staff awareness campaign to further reduce paper usage.

## 2024 GHG Emissions and Offsets Summary Table

Mount St Mary Hospital 2024 GHG Emissions and Offsets Summary	
<b>GHG emissions for the period January 1 - December 31, 2024</b>	
Total BioCO <sub>2</sub>	0
Total Emissions (tCO <sub>2</sub> e)	319
Total Offsets (tCO <sub>2</sub> e)	319
<b>Adjustments to Offset Required GHG Emissions Reported in Prior Years</b>	
Total Offsets Adjustment (tCO <sub>2</sub> e)	0
<b>Grand Total Offsets for the 2024 Reporting Year</b>	
Grand Total Offsets to be Retired for 2024 Reporting Year (tCO <sub>2</sub> e)	319
Offset Investment (\$)	\$7,975

### Retirement of Offsets:

In accordance with the requirements of the *Climate Change Accountability Act* and the Carbon Neutral Government Regulation, Mount St Mary Hospital (**the Organization**) is responsible for arranging for the retirement of the offsets obligation reported above for the 2024 calendar year, together with any adjustments reported for past calendar years (if applicable). The Organization hereby agrees that, in exchange for the Ministry of Energy and Climate Solutions (**the Ministry**) ensuring that these offsets are retired on the Organization's behalf, the Organization will pay within 30 days, the associated invoice to be issued by the Ministry in an amount equal to \$25 per tonne of offsets retired on its behalf plus GST.
