

## Menno Place 2025 Climate Change Accountability Report

**Title:** 2025 Climate Change Accountability Report

**Organization:** Menno Place

### PART 1. Legislative Reporting Requirements

**Declaration statement:** This PSO Climate Change Accountability Report for the period January 1, 2025 to December 31, 2025 summarizes our greenhouse gas (GHG) emissions profile, the total offsets to reach net-zero emissions, the actions we have taken in 2025 to minimize our GHG emissions, and our plans to continue reducing emissions in 2026 and beyond.

#### Emission Reductions: Actions & Plans

##### A. Stationary Sources (e.g., buildings, power generation)

In 2025, Menno Place reduced emissions by:

- Replacing appliances with energy-efficient units
- Replacing lights with LED fixtures through a BC Hydro incentive program
- Installed gas engine heat pumps through a pilot project with Fortis BC
- Installed solar panels that feed electricity back into the grid

In 2026/27, Menno Place will extend the GEHP pilot project and install additional equipment to further reduce gas and electricity consumption. Menno Place will also work with an engineering firm to identify further opportunities to reduce energy consumption by auditing and adjusting DDC building controls.

##### B. Mobile Sources (e.g., fleet vehicles, off-road/portable equipment)

Menno Place operates one bus. In 2026/27, we will continue to explore opportunities to install electric vehicle charging stations

##### C. Paper Consumption

In 2026, Menno Place implementing a digital scheduling system. We will continue to look for further systems to reduce paper usage.

##### D. Fugitive Sources <sup>5</sup> (e.g., heat pumps, refrigerators, air conditioners)

Menno Place has set up a refrigerant logbook to track leaks and refrigerant inventory. This was not closely monitored in the past because different contractors were used for HVAC services, and the information was not easily accessible.

## 2025 GHG Emissions and Offsets Summary Table

Menno Place 2025 GHG Emissions and Offsets Summary	
<b>GHG emissions for the period January 1 - December 31, 2025</b>	
Total BioCO <sub>2</sub>	9,45
Total Emissions (tCO <sub>2</sub> e)	465
Total Offsets (tCO <sub>2</sub> e)	456
<b>Adjustments to Offset Required GHG Emissions Reported in Prior Years</b>	
Total Offsets Adjustment (tCO <sub>2</sub> e)	0
<b>Grand Total Offsets for the 2025 Reporting Year</b>	
Grand Total Offsets to be Retired for 2025 Reporting Year (tCO <sub>2</sub> e)	456
Offset Investment (\$)	11,400

### Retirement of Offsets:

In accordance with the requirements of the *Climate Change Accountability Act* and the Carbon Neutral Government Regulation, **Menno Place (the Organization)** is responsible for arranging for the retirement of the offsets obligation reported above for the 2025 calendar year, together with any adjustments reported for past calendar years (if applicable). The Organization hereby agrees that, in exchange for the Ministry of Energy and Climate Solutions (**the Ministry**) ensuring that these offsets are retired on the Organization's behalf, the Organization will pay within 30 days, the associated invoice to be issued by the Ministry in an amount equal to \$25 per tonne of offsets retired on its behalf plus GST.
