COLUMBIA

Ministry of  
Transportation  
and Infrastructure

# CleanBC

## Roadmap to 2030

- Transportation is responsible for almost 40% of provincial GHG emissions
- Reduce transportation emissions by 27-32% (from 2007) by 2030
- Commitment to release a Clean Transportation Action Plan (CTAP) in 2023

# Active Transportation Infrastructure Grants

For Indigenous and local governments

- Cost-sharing grants for network plans and active transportation (AT) infrastructure, including:
  - AT facilities like restrooms, wayfinding, benches, bike racks etc.
- \$60 million budget for 2022 – 2025
- Incorporates GBA+ and UNDRIP into program
- 2023/24 intake is open from September 1 – October 27, 2023
- Program staff are available to answer questions and provide best practices and can be reached at [BCATgrants@gov.bc.ca](mailto:BCATgrants@gov.bc.ca)

# Active Transportation Capital Projects Fund

For projects within MoTI's right-of-way

Lake Burnaby Ped. & Bike. OH – Hwy 1, Burnaby  
– Fall 2023 construction –

Lions Gate Bridge – Hwy 1A/99, Vancouver

- Budget 2023 included \$85M over three years for AT infrastructure within provincial right-of-way.
- A framework and screening criteria have been developed to assess and identify projects for funding.
- Fund AT projects that best show measurable progress towards meeting the CleanBC Roadmap to 2030 targets:
  - Reducing Vehicle Kilometre Travelled (VKT) and/or
  - Increasing mode-shift to active transportation.

# Active Transportation Design Guide

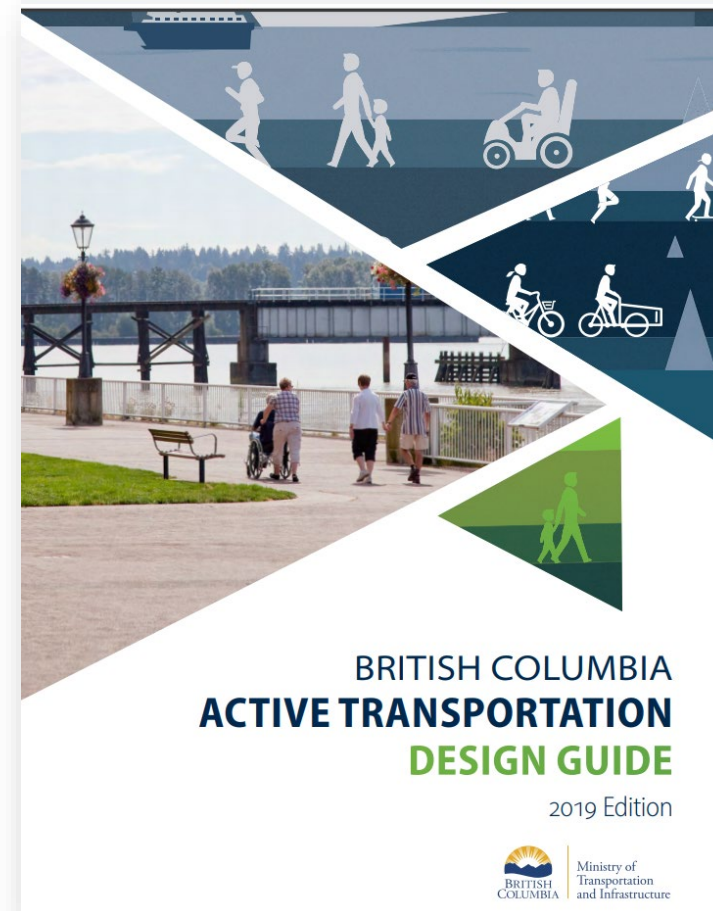

## AT Design Guide

- Consistency for users
- High-quality infrastructure

## All Ages and Abilities (AAA) Design

- Accessibility as a priority
- Relevant with the passage of the Accessible BC Act

## 2024/2025 Updates - AT Design Guide

# Active Transportation Programs

## Education and Encouragement

### EveryoneRides Grade 4-5

- Cycling education program in five centres across B.C.

### Active School Travel Planning

- Third year of pilot program encouraging walking/biking to school

### GoByBike

- In person and on-line events
- Next event: Oct 16 – 29, 2023

# AT in your Community

## Connect with your Regional MoTI Staff

- They are the experts on the local conditions, upcoming projects and want to know community interests.

## Connected Networks

- To encourage people to walk or cycle we need connected networks on municipal and MOTI roads. Integrated Planning, AT Network plans, Capital Project Funds and the AT Design Guide support connected networks.

## Collaboration

- Communities and MOTI face similar challenges – constrained road space, engineering requirements, budgets and maintenance challenges. We can work together to learn and solve these issues.

# Questions?
