

## ***Greenhouse Gas Industrial Reporting and Control Act Bulletin 019***

### **Requirement to report emissions from combustion of non-woody biomass**

*Greenhouse Gas Emission Reporting Regulation (GGERR)*

#### **Overview**

This bulletin provides information to industrial operators that have a reporting obligation under the Greenhouse Gas Emission Reporting Regulation ('the Regulation' or 'GGERR'). The GGERR has been amended (OIC#702) to update reporting requirements for emissions from combustion of non-woody biomass (biomass not listed in Schedule C of the Regulation).

Industrial operators should ensure they understand the requirements and provide notice of concerns or issues to the attention of the Compliance Unit for Industrial Reporting and Control at [GHGRegulator@gov.bc.ca](mailto:GHGRegulator@gov.bc.ca).

#### **Amendments to the GGERR**

The GGERR has been amended to add "carbon dioxide from biomass not listed in Schedule C" to Column 4 of Item 1(a) in Schedule A.

A consequential amendment was made to Column 3 of Item 2 in Schedule B in the GGERR to include the reporting requirement for carbon dioxide from biomass not listed in Schedule C.

#### **Applicability**

Emission reports prior to the 2021 reporting period completed in accordance with the Regulation are not required to be modified.

#### **Regulation is Determinative**

The above is not legal advice and is provided as an aid in understanding the Regulation. Operators are responsible for reviewing the Regulation to ensure compliance with it.
