2.2 Purchase and Sale

Subject to and in accordance with the terms and conditions set out in this Agreement:

**Option A - Fixed**

(a) Vendor shall sell and Deliver to the Province, and the Province shall purchase from Vendor, by each Delivery Date, Project Offset Units in an amount equal to the Minimum Volume;

**Option B - Range** [If Vendor’s delivery commitment will be limited to an obligation to deliver those Project Offset Units that are available instead of committing to delivery a specified Minimum Volume, the Minimum Volume in Table 1 should be zero.]

(a) Vendor shall sell and Deliver to the Province and the Province shall purchase from Vendor, by each Delivery Date:

(i) Project Offset Units in an amount equal to the Minimum Volume; and

(ii) Project Offset Units in an amount up to but not exceeding the lesser of (A) the Maximum Volume less the Minimum Volume, and (B) the total number of Project Offsets Units issued, other than to the Contingency Account, in respect of the Applicable Project Report Period, less the Minimum Volume;

**For all Options**

(b) Vendor shall:

(i) offer to sell to the Province Project Offset Units in an amount equal to the Available Additional Volume; and

(ii) sell and Deliver to the Province, and the Province shall purchase from Vendor, Project Offset Units in an amount equal to the Accepted Additional Volume by the applicable Delivery Date.

2.3 Delivery Process

Delivery of a given volume of Project Offset Units by Vendor to the Province may only be made in accordance with the following procedure:

(a) **Available Additional Volume** – At least ten (10) days prior to the Delivery Date, Vendor shall deliver to the Province a written notice indicating the amount of Project Offset Units that constitute the Available Additional Volume. At least five (5) Business Days prior to the Delivery Date, the Province may at its option deliver a written notice to Vendor indicating that the Province wishes to purchase all or a specified portion of the Available Additional Volume (the “Accepted Additional Volume”). If the Province does not deliver such notice, the Accepted Additional Volume shall be deemed to be zero.
(b) **Transfer** – On or before the Delivery Date, Vendor shall:

(i) deliver to the Province:

(A) a Transfer Form in respect of the volume of Project Offset Units that Vendor is delivering to the Province in satisfaction of its obligations under Section 2.2 in respect of such Delivery Date (the “**Transfer Volume**”) executed by Vendor; and

(B) an invoice for the Purchase Price for the Transfer Volume of Project Offset Units that: (i) indicates, among other things, the applicable Delivery Date, the number of Project Offset Units included in the Transfer Volume, and the Unit Price for such Project Offset Units; and (ii) indicates the Purchase Price payable, due date for payment, interest payable and acceptable payment methods, in each case consistent with Sections 2.7 and 13.3; and

(ii) take all steps necessary to transfer the Transfer Volume of Project Offset Units to an account maintained by the Province on the Registry, other than acceptance of the transfer by the Province.

The Parties acknowledge and agree that:

(c) notwithstanding anything else in this Agreement, Vendor shall not Deliver, and the Province will not be required to pay Vendor for, any Project Offset Units included in a Transfer Volume that are in excess of the amount of Project Offset Units that Vendor is obligated to sell and deliver to the Province pursuant to Section 2.2; and

(d) if the Transfer Volume is less than the full amount of Project Offset Units that Vendor is required pursuant to Section 2.2 to Deliver in respect of such Delivery Date, such failure by Vendor to satisfy such requirement shall constitute a breach of this Agreement and the Province shall be entitled to exercise any of its rights or remedies in respect thereof under this Agreement or otherwise.

[Following section **[Revised Delivery Date]** should be deleted if Delivery Dates do not fall between March 1 and March 31 of a calendar year.]

### 2.4 Revised Delivery Date

At least ten (10) days prior to a Delivery Date that falls between March 1 and March 31 of a calendar year, the Province may, by written notice to the Vendor, request a Delivery Date that is after the date shown in Table 1 of Section 2.1. Vendor shall, within five (5) days of receiving any such written notice, provide written notice to the Province whether Vendor agrees to the revised Delivery Date proposed by the Province. If, in any such notice, Vendor confirms its agreement to the revised Delivery Date proposed by the Province, such revised Delivery Date shall, from the date such notice from Vendor is deemed to be received by the Province under Section 13.1, be the applicable Delivery Date. Notice of a change in Delivery Date shall not have any retroactive effect or waive non-compliance with any obligation arising before the date that the Delivery Date is deemed to have been revised, but deadlines for performance by Vendor and the Province that are set relative to the Delivery Date and fall on or after the date of deemed receipt of notice will be adjusted accordingly.
2.5 Delivery of Substitute Offset Units

If, in respect of a Delivery Date, Vendor has reasonable grounds to believe that it will be unable to Deliver the Minimum Volume on or prior to the Delivery Date, Vendor may, with the prior written approval of the Province, not to be unreasonably withheld, make up the Delivery Shortfall by completing the Delivery process set out in Section 2.3 in respect of Offset Units that are not Project Offset Units (“Substitute Offset Units”) in an amount that may not exceed the applicable Delivery Shortfall. The Parties agree that it shall not be considered unreasonable for the Province to:

(a) refuse to provide such prior written approval under this Section 2.5:

(i) if such Substitute Offset Units are, or will be generated, from a project of a type or location that the Province determines, in its sole discretion, is inconsistent with the Province’s wishes regarding the development and management of its Offset Unit portfolio; or

(ii) on the basis of any other criteria used or relied upon by the Province in developing and managing its Offset Unit portfolio; and

(b) condition the granting of the Province’s consent on Vendor agreeing that an alternative Unit Price proposed by the Province will apply to Substitute Offset Units delivered to the Province pursuant to this Section.

2.6 Transfer of Title

All of Vendor’s right, title and interest in and to a Delivered Volume passes to the Province upon Delivery.

2.7 Payment

The Province shall pay to Vendor the Purchase Price for each Delivered Volume within thirty (30) days of Delivery of such Delivered Volume.

ARTICLE 3
SUBSTITUTE DELIVERIES

3.1 Substitution by the Province

The Province may, by written notice to Vendor, in respect of any one or more Delivery Dates, elect at its sole discretion to require Vendor to deliver, in lieu of Project Offset Units it would otherwise be required to Deliver hereunder, any other offsets, offset units, credits, allowances, rights to discharge Greenhouse Gases or other commodity that may be derived from the Project Reductions or Reduction Rights in respect of the Project Reductions (collectively “Alternative Units”). If the Province makes such an election:

(a) Vendor shall deliver such Alternative Units in substitution of Project Offset Units it would otherwise be required to Deliver hereunder;

(b) Vendor shall take or cause to be taken or consent to all such further acts as may be required to deliver such Alternative Units in substitution of Project Offset Units; and
(c) the Province shall pay all reasonable incremental costs directly attributable to such substitute deliveries and make allowances for any delay in delivery of such Project Reductions that results from any such election by the Province, provided that Vendor demonstrates to the Province that Vendor has made commercially reasonable efforts to (i) achieve delivery on the Delivery Date or as soon as possible thereafter, and (ii) avoid incurring or otherwise minimize such incremental costs.

3.2 Good Faith Negotiations

If the Province gives notice under Section 3.1, the Province and Vendor shall make good faith efforts to negotiate alternative delivery mechanisms as may be required to effect the substitute deliveries provided for in Section 3.1 and, if no agreement is reached within 30 days of initiating negotiations, either Party may refer such matter to dispute resolution in accordance with Article 9.

ARTICLE 4
CONDITIONS PRECEDENT

4.1 The Province’s Conditions Precedent

The obligations of the Province to accept Delivery of Project Offset Units from Vendor, and to pay Vendor the Purchase Price therefor, are subject to the following conditions (“Province’s Conditions”) being fulfilled, performed or waived on or before the date on which Delivery is made:

(a) the representations and warranties of Vendor made pursuant to Article 6 in respect of such Delivery shall be true and correct in all material respects;

(b) the Province being satisfied, acting reasonably, with the results of all investigations, inquiries, reviews and audits completed or in progress pursuant to Section 5.3; and

(c) **For Projects grandfathered from GGRTA to GGIRCA:** the Province being satisfied, acting reasonably, that the Project Plan was prepared and validated in accordance with GGRTA, the assertions in the Project Plan are “fair and reasonable” (as contemplated under GGRTA), the Project was accepted by the Director in accordance with GGIRCA, the verification of such Project Report(s) complied with the requirements of GGIRCA, and the assertions in such Project Report(s) are “fair and accurate” (as contemplated in section 21 of the GGECR).

(c) **For all other Projects:** the Province being satisfied, acting reasonably, that the Project Plan and the applicable Project Report(s) were prepared in accordance with GGIRCA, the validation of such Project Plan and the verification of such Project Report(s) complied with the requirements of GGIRCA, the Project was accepted by the Director in accordance with GGIRCA, and the assertions in the Project Plan are “fair and reasonable” (as contemplated in section 15 of the GGECR) and the assertions in such Project Report(s) are “fair and accurate” (as contemplated in section 21 of the GGECR).
4.2 Sole Benefit of the Province

Vendor agrees that the Province’s Conditions are for the sole benefit of the Province. None of the Province’s Conditions shall be waived except by written notice from the Province or its solicitors to Vendor or its solicitors.

4.3 Vendor Bound

Notwithstanding that the Province’s Conditions may leave discretion in the Province whether to complete any specific purchase of Project Offset Units or not, Vendor agrees, for good and valuable consideration (the receipt and sufficiency of which has been acknowledged above), that Vendor shall be bound by this Agreement.

ARTICLE 5
VENDOR COVENANTS

5.1 Project Development and Operation

Vendor shall cause the Project to be developed and operated to the standard of a reasonably prudent offset project developer and in accordance with the requirements of the Project Plan and Applicable Law, and, without limitation:

(a) Vendor will take all commercially reasonable steps to ensure issuance by the Director prior to each Delivery Date of Project Offset Units in respect of the Applicable Project Report Period for that Delivery Date; and

(b) at least 40 Business Days prior to each Delivery Date, or such other period as the Province, acting reasonably, advises Vendor is consistent with timelines for Director’s review of applications for Offset Unit issuance and Delivery in accordance with section 2.3(a), Vendor will submit to the Director an application for issuance of Project Offset Units, together with Project Report, verification statement, and all other materials required by GGECR for issuance of Project Offset Units in respect of the Applicable Project Report Period.

5.2 Project Information and Reporting

(a) Vendor shall, if requested by the Province, provide the Province with copies of any Project Report and any other documentation that is provided to the Director in respect of Project Offset Units, Project Reductions, or the Project, on the same date that such materials are provided to the Director, or if the request is delivered to Vendor after that date, within two (2) Business Days of the delivery of the request.

(b) Vendor shall promptly provide to the Province copies of any documentation that Vendor has provided to or received from Third Parties in connection with the validation of the Project and the verification of the Project Reductions which may reasonably be expected to materially adversely affect the Project.

(c) Vendor shall promptly notify the Province in writing of any event or circumstance which may reasonably be expected to materially adversely affect the Project or the Project Reductions generated or to be generated thereby.
(d) Vendor shall, within 15 days of any request from the Province, deliver to the Province a brief report related to projected delivery of Offset Units under this Agreement, including any information reasonably required by the Province related to any events that are anticipated to affect the volume of Offset Units Delivered under this Agreement and the timing of such Deliveries.

[NTD: Include the following paragraph (e) if the Province wishes to receive Progress Reports in respect of the relevant Project.]

(e) Vendor shall, no later than three (3) months prior to each Delivery Date, deliver to the Province a progress report as described in Schedule 3, in respect of the implementation by the Proponent of commitments contained in the Vendor Commitment Document, during the Applicable Project Report Period.

5.3 Inspections, Records and Audit

(a) The Province may at any time and from time to time conduct all such investigations and inquiries as the Province may deem necessary or advisable in connection with Project Offset Units, the Project and the Project Reductions generated or to be generated thereby and the related Reduction Rights, including but not limited to, determining whether (i) the Project Plan and the applicable Project Report(s) were prepared in accordance with GGIRCA, (ii) the validation of the Project Plan and the verification of applicable Project Report(s) complied with the requirements of GGIRCA, or (iii) the assertions in the Project Plan are “fair and reasonable” (as contemplated in section 15 of the GGECR) and the assertions in such Project Report(s) are “fair and accurate” (as contemplated in section 21 of the GGECR), and the Province may, acting reasonably, request additional information, data, photographs or other records from Vendor in connection therewith, and Vendor shall supply the requested information to the Province and provide such other reasonable assistance as the Province requires in order to complete such investigations and inquiries, all within a reasonable time and in a form acceptable to the Province, acting reasonably. Where such investigations and inquiries by the Province require access to a Project Participant’s property, including any information, data, photographs or other records of the Project Participant, Vendor shall ensure that the Project Participant provides such reasonable access and assistance as the Province requires in order to complete such investigations and inquiries.

(b) In addition to any records required to be kept under GGIRCA or other Applicable Law, Vendor shall keep such additional financial and other records in connection with the Project and the sale or disposition of Project Offset Units as may be reasonably required to enable a Third Party to confirm Vendor’s compliance with its obligations under this Agreement.

(c) At any time the Province may at its sole discretion retain an independent Third Party to review and/or audit Vendor’s compliance with this Agreement. Vendor shall make available to the Third Party all information, data, photographs or other records reasonably requested by such Third Party in connection with any such review and/or audit. The Province shall bear its costs of such review and/or audit, unless such review and/or audit concludes that Vendor has failed to comply with its obligations under this Agreement in any material way, in which case Vendor shall pay the Province’s costs of the review and/or audit.
5.4 Additional Vendor Commitments

Vendor will take commercially reasonable steps to ensure that

(a) Any actions described in the Vendor Commitments Document are implemented in the timeframes specified in the Vendor Commitments Document, or if no timeframes are specified, throughout the Term, and, if applicable, in a manner that can be reasonably be expected to achieve the outcomes described in the Vendor Commitments Document;

(b) If applicable, the Vendor will achieve any outcomes the Vendor has committed to achieving in the Vendor Commitments Document by the times specified in the Vendor Commitments Document, or if no timeframes are indicated, throughout the Term.

ARTICLE 7
EVENTS OF DEFAULT AND REMEDIES

7.1 Events of Default

A Party commits an event of default if:

(a) it is Vendor, and Vendor fails to Deliver Project Offset Units that it is required to Deliver pursuant to this Agreement, and such breach is not cured within ten (10) days of the applicable Delivery Date;

(b) it is Vendor, and breaches its obligations under section 5.1(b), and such breach is not cured within ten (10) days of the date required for the submission of an application to issue offset units

(c) it is in material breach of its obligations under this Agreement, other than such breaches of its obligations as are described in Section 7.1(a) and (b), and such breach is not cured within ten (10) days of written notice of such breach by the other Party;

(d) a representation or warranty made by it pursuant to Article 6 proves to have been misleading or false in any material respect when made and such Party does not cure the underlying facts so as to make such representation and warranty correct and not misleading within ten (10) days of written notice from the other Party;
(e) it is Vendor, and a Project Participant or Vendor knowingly or negligently provides information relating to the Project to the Province, the Validation Provider, the Verification Provider, any independent Third Party reviewer and/or auditor as contemplated by Section 5.3, (each a “Recipient”) or includes information in a Project Plan, any Project Report, or any other document or correspondence relating to the Project provided by a Project Participant or Vendor to a Recipient, that is materially false or misleading; or

(f) it makes an assignment or any general arrangement for the benefit of its creditors, files a petition or otherwise commences, authorizes or acquiesces in the commencement of a proceeding or cause under any bankruptcy or similar law for the protection of creditors, or has such a petition filed against it, or otherwise becomes bankrupt or insolvent (however evidenced).

7.2 Remedies for Events of Default

Subject to Section 7.3, if an Event of Default occurs with respect to Vendor or the Province, then the non-defaulting Party may exercise any or all of the following remedies:

(a) terminate this Agreement by notice, effective on the later of the date specified in the notice or the date the notice is deemed to have been received under section 13.1;

(b) set off against any payments due in respect of this Agreement and any other agreements between the Parties an amount equal to its damages; and

(c) any other such remedy or remedies available at equity or common law, including a claim in damages.

7.3 Delivery of Project Offset Units After Breach of Delivery Obligations

If Vendor is in breach of any of its obligations pursuant to Section 2.3 or fails to Deliver Project Offset Units that it is required to Deliver pursuant to this Agreement, Vendor shall nevertheless attempt to complete in a manner consistent with the process set out in Section 2.3 the Delivery of as many Project Offset Units as it is required to Deliver pursuant to this Agreement by the Delivery Date or as soon as possible thereafter until all such Project Offset Units are Delivered. The Province may, in its sole and absolute discretion, elect to reject any or all Project Offset Units for which Delivery is not completed by the applicable Delivery Date by written notice to Vendor delivered no later than ten (10) days after the Delivery Date in respect of those Project Offset Units to the Province consistent with Section 2.3(b), or completion of the Delivery of those Project Offset Units, whichever is later.

Subject to any agreement concerning the Unit Price applicable to Substitute Offset Units pursuant to Section 2.5, the Purchase Price for any portion of a Delivered Volume Delivered after the applicable Delivery Date shall be calculated using the Discounted Unit Price instead of the Unit Price. For greater certainty, if Vendor has failed to complete Delivery of Project Offset Units by the applicable Delivery Date, the Discounted Unit Price shall be used to calculate the Purchase Price, whether or not there is an Event of Default or the failure is due to an event or circumstance of Force Majeure.
7.4 Liquidated Damages

If the volume of Project Offset Units and Substitute Offset Units for which Delivery has been completed on the date that is 60 days after the applicable Delivery Date is less than the Minimum Volume, subject to this Section 7.4, liquidated damages are immediately payable by Vendor to the Province equal to:

(a) the difference between:
   
   (i) the volume of Project Offset Units and Substitute Offset Units for which Delivery has been completed on that date (60 days after the Delivery Date); and

   (ii) the Minimum Volume,

(b) multiplied by the Liquidated Damages Rate.

No Liquidated Damages are payable under this Section:

(c) in respect of a failure to deliver Project Offset Units following an election by the Province to terminate this Agreement under Section 7.2(a), if such termination occurs before the date that is 60 days after the applicable Delivery Date; or

(d) in respect of a failure to Deliver Project Offset Units caused by a Force Majeure if Vendor has complied with the notice provisions and other obligations of Article 12.

Without limiting any claim in damages for an Event in Default other than a failure to Deliver the Minimum Volume, if Liquidated Damages are payable under this Section, the Province may not exercise any other remedy in respect of failure to Deliver the Minimum Volume, other than the adjustment to the Purchase Price referred to in Section 7.3.

7.5 No Penalty

The Parties acknowledge and agree that the payment obligations set forth in this Article, including any payments for liquidated damages pursuant to Section 7.4, are reasonable in light of the anticipated harm and the difficulty of estimation or calculation of actual damages, and each Party hereby waives the right to contest such payments as an unreasonable penalty.

7.6 Consequential Damages

Notwithstanding any other provision of this Agreement, in no event will either Party be liable to the other Party for consequential, incidental, punitive, exemplary, or indirect damages in tort, contract or otherwise, including lost profits, lost business revenue or other commercial or economic loss of any kind.

7.7 Limitation on Liability

Notwithstanding anything else in this agreement, neither Party shall be liable to the other Party for one or more Events of Default in amount exceeding the sum produced by totalling the Maximum Payment for each Delivery Date.
ARTICLE 8
INDEMNITIES

8.1 Indemnity of the Province
