CUMULATIVE EFFECTS FRAMEWORK

MOVING FORWARD

WORKSHOP 1

Target Audience

Natural Resource Sector (NRS) stakeholders, land managers, and environmental non-government organizations (ENGOS) and professional associations.

Workshop 1 will focus primarily on the interests and needs of individual natural resource sector stakeholder groups, land managers, environmental NGOs and professional associations. These are organizations and associations that have direct interest in the implementation of the cumulative effects framework.

Goals of Workshop 1:

- Build knowledge of the draft Cumulative Effects Framework policies including:
 - The approach to assessment and reporting.
 - Implications for Natural Resource Sector decision-making, including Government's consideration of Cumulative Effects in operational and strategic decision-making.
 - How information will be made available to clients to support proponent planning and applications.
 - Opportunities for engagement on Cumulative Effects assessments as outlined in the draft Cumulative Effects Framework policies.
- Solicit feedback on the scope, content, and implementation of the draft policies.
- Build awareness of next steps, timelines for development and opportunities for future engagement on Cumulative Effects Framework products.

Time: 9:30 to 4:30

Date: 16 June 2016

Location: SHERATON VANCOUVER AIRPORT HOTEL

7551 Westminster Highway, Richmond, BC V6X 1A3

Toll Free: 1-888-627-8291

The draft policies for cumulative effects [assessment](#) and [management](#), [discussion paper on procedures](#), and [grizzly bear value summary](#) will serve as the basis for discussion during the workshop. It is recommended that all workshop participants review the drafts prior to the workshop, as there will not be sufficient time during the workshop to review the documents in detail.

Time	Workshop 1 - Draft Agenda	
	1	Introduction
9:30	1.1	Welcome and introductions
