Backlog NSR, RESULTS Data Trends and Training Needs

**Land Based Investment Strategy (LBIS):
Current Reforestation Planning and Delivery Workshop**

September 12, 2012

Richmond, BC

Caroline MacLeod

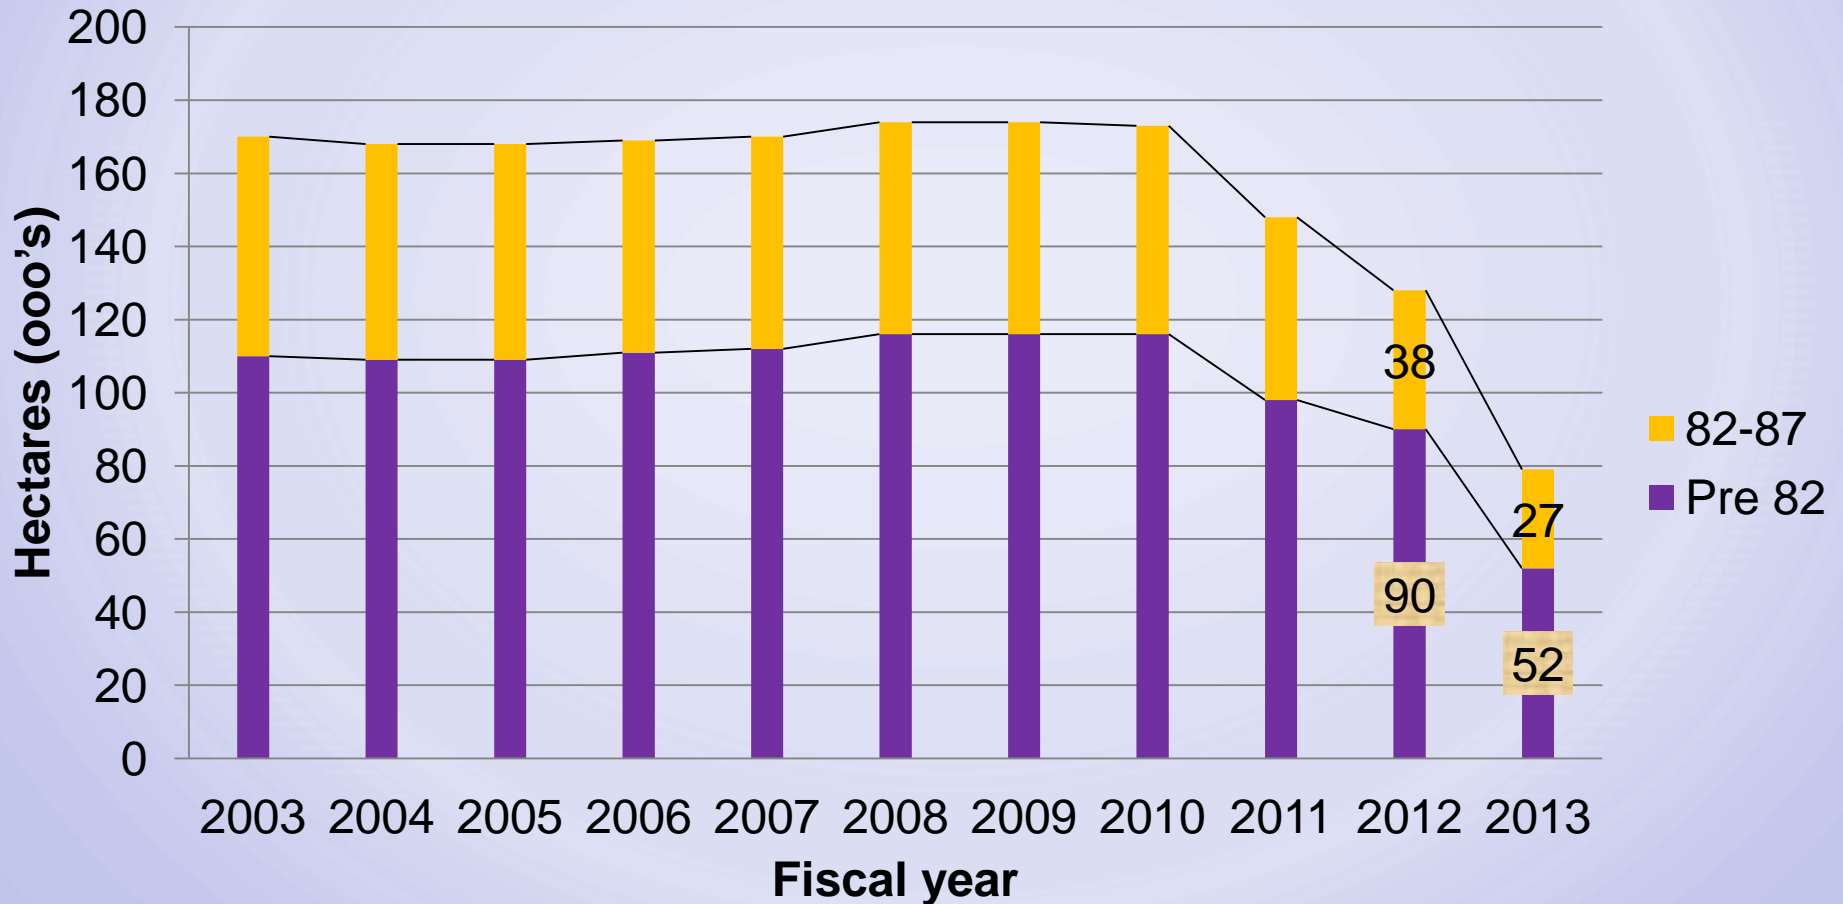

Matt LeRoy

Resource Practices Branch

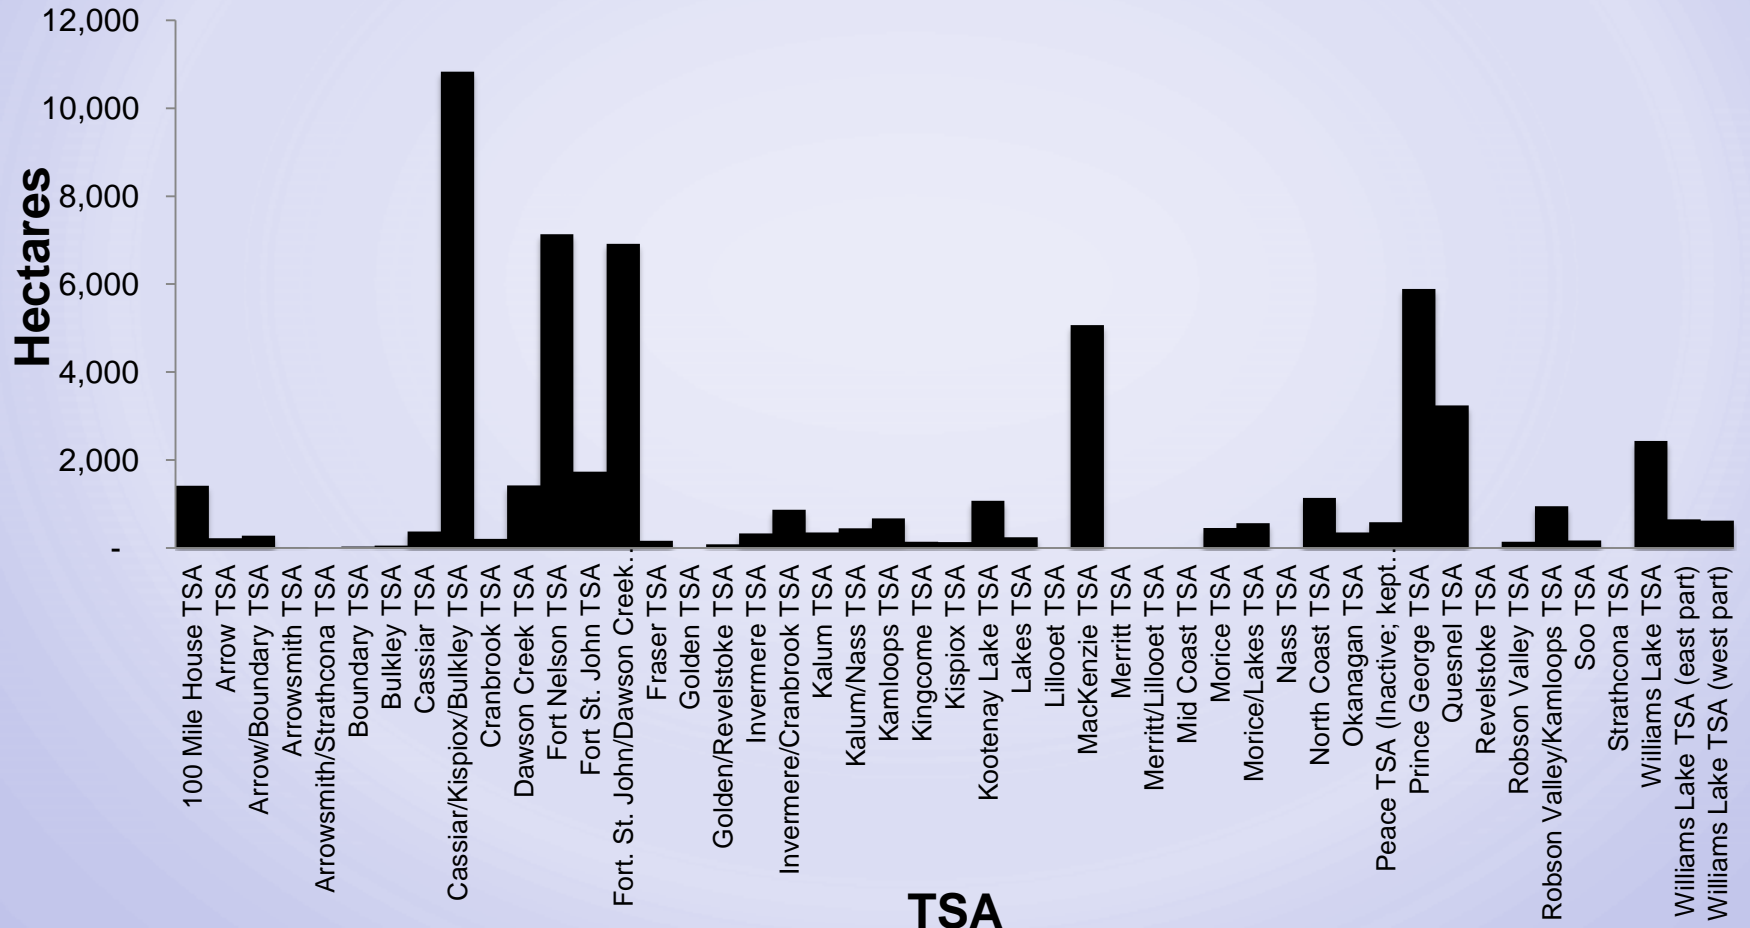

Goals and Objectives

- Backlog NSR update
- Data Requirement and RISS
- Data Quality
- Training

Provincial Backlog NSR totals

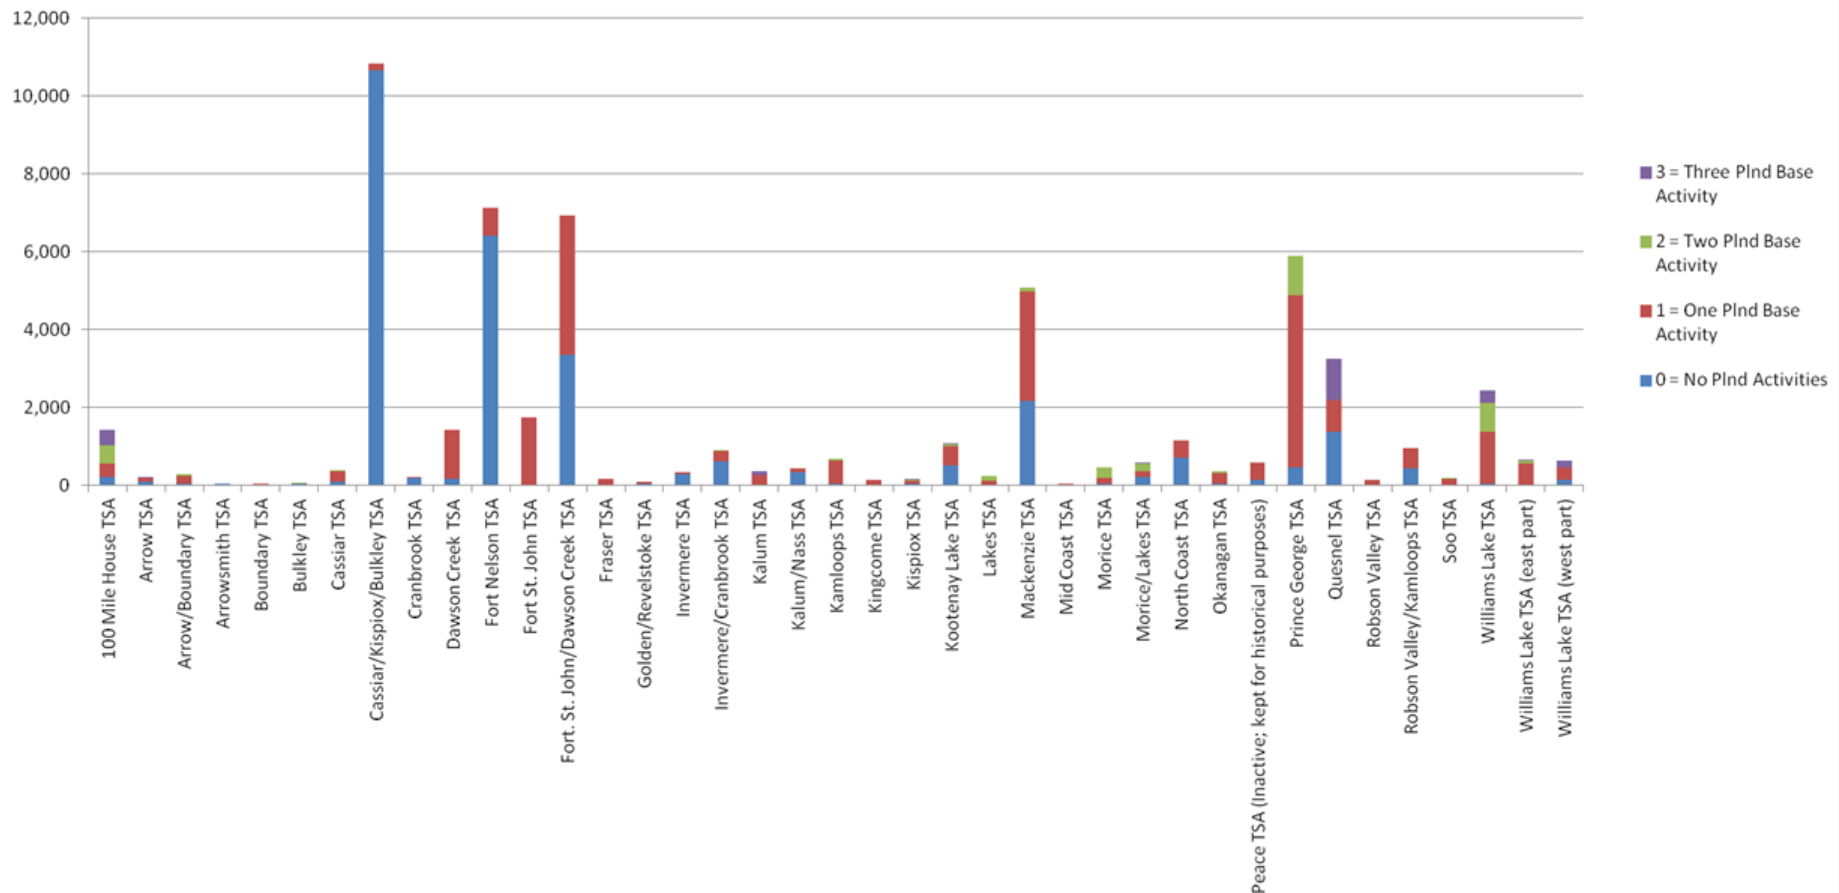

Backlog NSR hectares by TSA

Backlog NSR Area with Planned Activity Type >= 2004

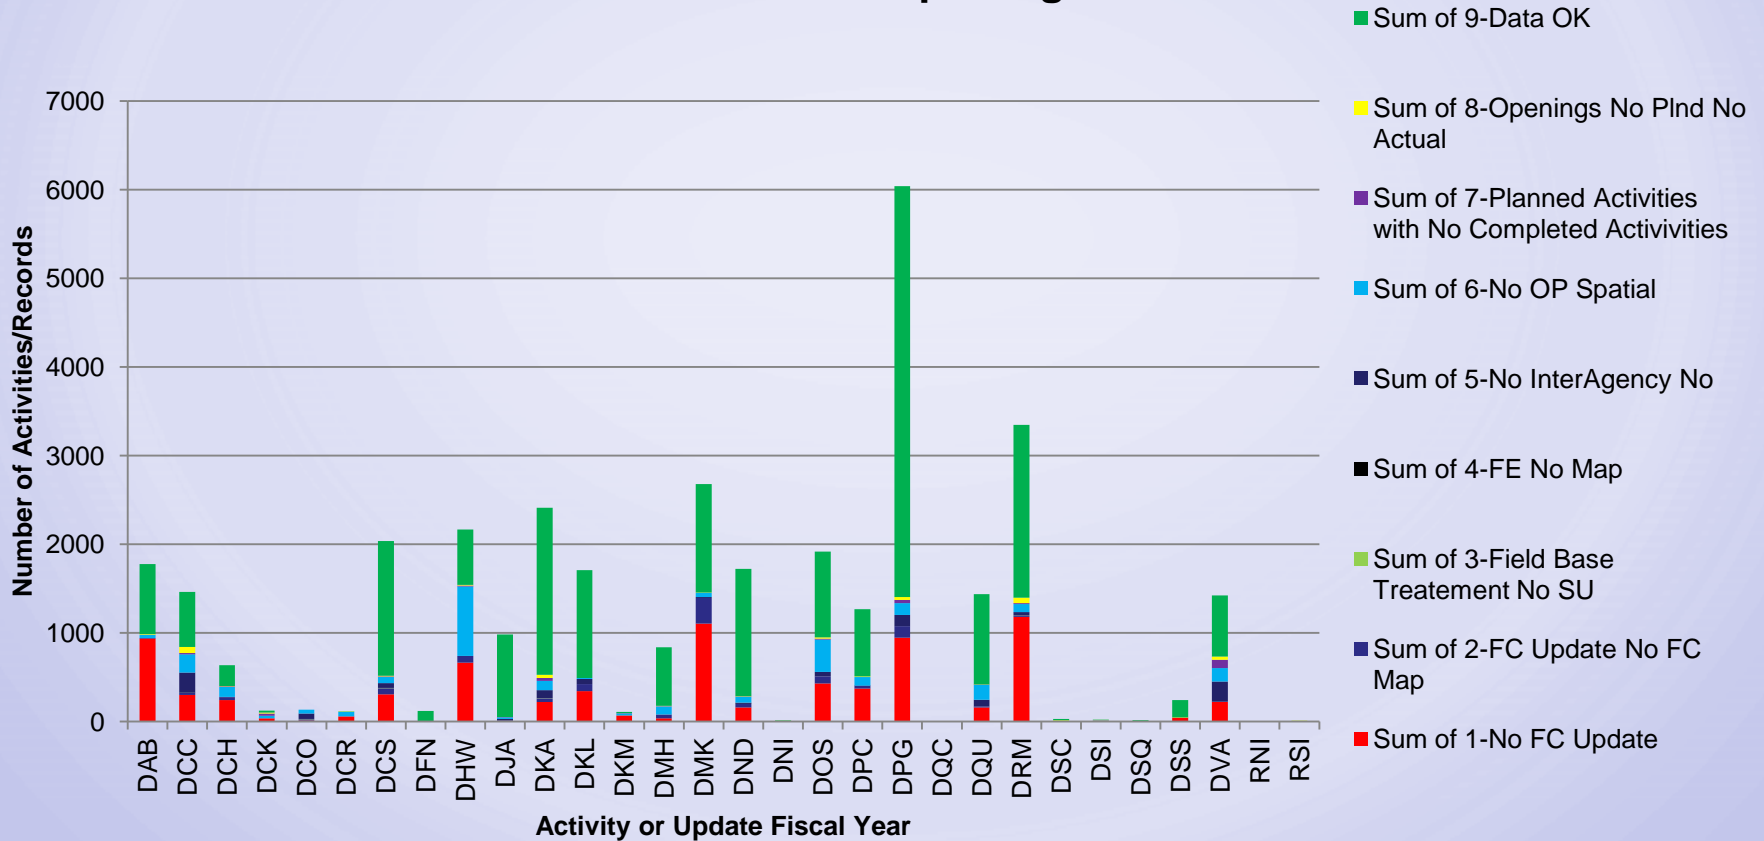

- Known Challenges:
 - Not just an opening file exercise
 - Getting down to the most challenging openings
- Comments/Questions:
 - Aerial overview flights, for DSS, DFN
 - Do folks know about their options with survey standards?
 - ****Chartwell is on deck to help with data entry, surveys, forest cover submissions etc.**
 - **September 20th backlog NSR meeting**

RESULTS Training Plan

- Potential for increasing training requirement and move to a certification model;
- Existing training material and recorded sessions on RPB hosted Live Meeting site;
- Forward planning session;
- Snap Tool/Survey Wizard Training;
- EzLink Training;
- “One on One” sessions via Live Meeting.

Summary

- Backlog NSR updates
- Need for better data
- Need for more training based on job functions and individual needs
- Need for complete planning activities in RESULTS
