ECOLOGICAL/SOCIAL VULNERABILITY TO A CHANGING ENVIRONMENT

EXPOSURE/EFFECTS

ADAPTIVE CAPACITY

COMPETING PRESSURES

ADAPTATION FRAMEWORK ACTIONS

PILLAR 1. Provide the evidence base (projections, opportunities, expert opinion, trends, etc.) for need to change

PILLAR 2. Equip decision makers with skills & tools (AM, risk framework, vulnerability assessments, etc.)

PILLAR 3. Integrate adaptation into local regulation and district policy and monitor trends (e.g., FPPR 26/5, etc.)

DELIVER ADAPTATION ACTIONS THAT ARE SENSITIVE TO LOCAL NEEDS

RESULT: increase the resistance of the Williams Lake TSA to the effects of environmental changes

Adapted from Scotland’s Climate Change Adaptation Framework (Donnelley 2009)
