

Pesticide Sales Record

FORM REFERENCE CODE: EPD-IPM-07.2

INSTRUCTIONS:

This record is to be completed for every sale of Commercial, Restricted or Permit-restricted class pesticide. Pesticide sales records must be kept for a period of three (3) years following the pesticide sale and must be made available to the ministry upon request. For sales of Restricted or Permit-restricted pesticides, the purchaser's Applicator Certificate number must be recorded. Please note that while a record of each pesticide sale is required, the use of this specific form is voluntary and many vendors elect to use their own systems to record the required information. This information is used to generate an annual sales summary.

Under a Minister's Order, effective July 21, 2021, records must be kept for each sale of second-generation anticoagulant rodenticides (containing the active ingredient brodifacoum, bromadiolone, or difethialone):

- applicator's name and pesticide applicator certificate number, for essential services and licenced pest control companies
- category of the authorized purchaser: licenced pest control company (with licence number), essential service, or agricultural operation
- employer or business name and contact information, if the purchaser is an employee or agent

Abbreviations or codes may be used to complete this record only if a key to the abbreviations and codes is attached to this form.

Note: If printing this form, select legal-sized paper.

Record for the Year (YYYY)	Licence Holder Name	Licence Number
