

May 2021

[BC Species and Ecosystems Explorer \(BCSEE\)](#) is used for accessing information about species and ecological communities in British Columbia. Following our latest significant enhancement in July 2020, we have implemented additional improvements, both on the backend to improve the application function behind the scenes, as well enhancements based on your feedback.

Feedback can be submitted to the [BC Conservation Data Centre](#) at cdccdata@gov.bc.ca.

What's New
