BC Conservation Status Rank Review and Changes

Ecological Communities

The conservation status for twenty three ecological communities was reviewed.

- Five new communities were added to the CDC list and ranked for the first time.
- Thirteen communities had rank changes, mostly due to additional or better information being available (see spreadsheet of changes for more information).
- The ranks remained unchanged for five communities.

Twenty four Conservation Status Reports were updated.

Seven ecological communities were reclassified and the old ones were deleted.

Thirteen ecological communities had scientific name changes.

Four ecological communities had English name changes.

Three hundred and thirteen element occurrences were published for eleven ecological communities.
