

Conservation Framework: Priorities and actions in BC Species and Ecosystem Explorer

Obtaining Conservation Framework priorities and actions from BC Species and Ecosystem Explorer:

Conservation Framework outputs for specific groups of species or ecosystems can be obtained from a basic search on **BC Species and Ecosystem Explorer**.

1. Go to [BC Species and Ecosystems Explorer](#) and on the top right of the page click **“Launch BC Species and Ecosystem Explorer”**
2. Search for any plant or animal species, or ecological community, using the search criteria available (conservation status, legal designations, origin or distribution, etc.).
3. Conservation Framework priorities will be included in your search outputs (see image below). Export this data by clicking the **“Export”** button to receive the search outputs, including Conservation Framework action groups, in a Microsoft Excel spreadsheet. In addition, a Conservation Framework Report is available from the **“Reports”** section, accessed by clicking the folder icon in the Reports column.

Search Criteria
 Species Name: Scientific Name or English Name like BADGER
 AND Species Group: Plants & Animals
 Sort Order: Scientific Name Ascending

Notes
 1. Citation: B.C. Conservation Data Centre. 2008. BC Species and Ecosystems Explorer. B.C. Minist. of Environ. Victoria, B.C. Available: <http://a100.gov.bc.ca/pub/eswp/> (accessed [enter date accessed]).
 2. Forest District, BGC Zone, MoE Region, Regional District and habitat lists are restricted to species that breed in the District/Zone/Region or habitat; i.e. species will not be placed on lists for Districts/Zones/Regions or habitats where they occur only as migrants.

Searching for specific Conservation Framework priorities or action groups:

1. Go to [BC Species and Ecosystems Explorer](#) and on the top right of the page click **“Launch BC Species and Ecosystem Explorer”**
2. Use the **“Conservation Framework”** dropdown box and select the **“Priority”** or **“Action group”** of interest (see image below).
3. You will be provided with a list of all species or ecological communities matching your search criteria. Search results can then be viewed or exported as outlined above.
