Highlights

The Quarterly Environmental Enforcement Summary for the 3rd Quarter of 2016 includes environmental enforcement actions from July 1st – September 30th 2016: 10 Orders, 68 Administrative Sanctions, 596 Tickets, 1 Administrative Penalty, and 5 Court Convictions. Penalties for this Quarter total \$148,000.

Notable Highlights this Quarter:

Two Orders to Remedy were issued under the *Environmental Assessment Act* to address non-compliances identified during an inspection of the **Meikle Wind Energy Project**. The first order was in response to wildlife attractant management concerns, which were identified at multiple locations around the Project site. The second was the result of insufficiently implemented or maintained erosion and sediment control mitigation measures, which were identified at multiple locations around the site, as well as along access roads to the site.

During on-site inspections of the **Woodex Industries Ltd.** facility, officers observed large smoldering and steaming wood waste piles that were pushed off the edge of the property – potentially causing air pollution and fire hazards. A Pollution Prevention Order was issued under the *Environmental Management Act*, requiring Woodex to immediately cease the unauthorized generation of wood waste, and to remove and dispose of the existing piles.

During an on-site inspection of the **Yaorun Wood Company Ltd.** facility in New Hazleton, officers were concerned about groundwater protection due to the use and operation of an excavated well. Yaorun Wood was ordered to immediately cease all activities in and around the excavated well, and to bring it into compliance with the *Water Sustainability Act*.

The **Off-Road Vehicle Act** came into effect November 2015, introducing new regulations to promote the safe and responsible use of British Columbia's backcountry: including provisions regarding number plates, youth operators and safety equipment. Forty-five tickets were issued under the new *Act* during this Quarter, twenty of which were issued for the failure to wear a safety helmet.

Tolko Industries Ltd. received a \$3,100 Administrative Penalty under the *Environmental Management Act* for failure to comply with an Information Order that was issued in response to the continued discharge of air contaminants from a planer baghouse at a sawmill/ planer mill facility in Williams Lake. This is the second Administrative Penalty that the company received in 2016 regarding emissions from the facility.

Luke Holman pled guilty to the unlawful possession of a Burmese python which is a **prohibited species** under the *Wildlife Act*. The conviction resulted in a \$2,875 court penalty. Holman also opted to pay for the transport of the python to a permitted facility in Ontario.
