Highlights

The Quarterly Environmental Enforcement Summary for the 4th Quarter of 2017 includes environmental enforcement actions from October 1st – December 31st 2017: 9 Orders, 94 Administrative Sanctions, 659 Tickets, eight Administrative Penalties, and 28 Court Convictions. Penalties for this Quarter total \$350,752.

Notable Highlights this Quarter:

Teck Coal Ltd. (Teck) operates five steelmaking coal mines in the Elk Valley of southeastern British Columbia. In October 2017, Teck received three Administrative Penalties under the *Environmental Management Act*, totaling \$78,100, for failure to comply with an effluent discharge permit for its Line Creek Operations. Between 2013 and 2015, numerous discharges from heavy duty wash bays exceeded permit limits for extractable petroleum hydrocarbons (EPH). Half of the permit exceedances were more than 50% over the limit and a quarter were more than 200% over the limit. Teck also failed to inspect and maintain authorized works, notably an oil water separator which would have helped prevent the exceedance of permitted EPH levels. The third penalty was issued for failure to immediately report the non-compliances, with delays up to 104 days.

Bralorne Gold Mines Ltd. (BGM) operates an underground gold mine in Bralorne B.C., near Lillooet. The operation's permit under the *Environmental Management Act* authorizes the discharge of effluent to a tailing impoundment, the ground and to neighbouring Cadwallader Creek in accordance with the permit's conditions. Higher than normal freshet flows during 2015 and 2016 resulted in several non-compliances. These include exceeding permitted arsenic concentrations, discharging on dates outside the allowed period, bypassing authorized works, and failing to report the non-compliances. In response, BGM received four Administrative Penalties totalling \$73,150.

Grace-Mar Farms Ltd. operates a dairy farm in Armstrong B.C. on the Hullcar aquifer. The company received two Administrative Penalties in 2017 totalling \$17,000 in relation to the management of nitrate sources to the aquifer. Reported in the third Quarter of 2017, the company applied agricultural waste contrary to the Agricultural Waste Control Regulation and a Pollution Abatement Order on three separate occasions in early 2017, resulting in a \$12,500 penalty. The second was issued in December 2017 for a total of \$4,500. This was in response to a spill of agricultural waste from a sewage lagoon that occurred in February 2017. The second penalty amount was reduced in consideration of the financial impact on the operation and to allow for financial resources to instead be put toward spill prevention, reporting, and infrastructure.

Jian Fen Chen was found guilty on six counts under the *Wildlife Act* for **trafficking bear paws and bear gall bladders**. The offences occurred in Surrey and Langley between September 2015 and September 2016. Chen was sentenced to pay over \$20,000 in penalties, with \$3,000 directed to the Habitat Conservation Trust Foundation (HCTF). Chen was also required to forfeit monies related to the wildlife trafficking sales (\$2,000 total).

Hong Hui Xie was found guilty on six counts under the *Wildlife Act* for **trafficking bear paws, bear gall bladders, and deer meat**. The offences occurred in 100 Mile House and Cache Creek between October 2015 and September 2016. Xie was sentenced to pay over \$20,000 in penalties, with \$3,000 directed to the HCTF. Xie was also required to forfeit monies related to the wildlife trafficking sales (\$1,340 total).
