

QUARTERLY ENVIRONMENTAL ENFORCEMENT SUMMARY

2nd Quarter 2015
(April 1 - June 30)

Protecting the Splendor of our Natural Places

Highlights

The Quarterly Environmental Enforcement Summary for Q2 2015 outlines 4 Orders, 49 Administrative Sanctions, 395 Tickets, and 18 Court Convictions for a combined total of over \$391,500 in penalties.

Notable Highlights this Quarter:

Progress Energy Canada Ltd. pled guilty in Provincial Court, and was ordered to pay a total of \$250,000 in penalties for an offence under the federal *Migratory Birds Convention Act*. British Columbia's Conservation Officer Service initiated the investigation and worked with Environment Canada staff to establish that migratory birds died as a result of their exposure to a form of petroleum liquid hydrocarbon. The company had no deterrence measures in place to limit the bird's access to the open, above-ground, holding tank. In total, 17 Mallard ducks were found dead in the tank. Of the \$250,000 penalty, the company will pay a \$5,000 fine, and will make a payment of \$122,500 to the Environmental Damages Fund, and split another payment of \$122,500 among three charities.

A Community Environmental Justice Forum was held in Kamloops on May 6, 2015 after the accidental release of an estimated 4,300 cubic metres of raw sewage into the South Thompson River. This incident contravened the *Environmental Management Act*. As a result of the Forum, the **City of Kamloops** agreed to contribute \$20,000 towards improving fish habitat and another \$8,000 upgrading and enhancing alarm systems at sewer pumps to prevent similar events in the future.

A **Minister's Order** was issued to the owner of a residential property where an illegal drug manufacturing lab had operated. Solvents (primarily dichloromethane) were released to the ground, resulting in soil, groundwater and vapour contamination at concentrations indicating a "high risk" condition at, and adjacent to, the property. The property owner and former tenant (the alleged operator of the lab) failed to investigate and remediate the contaminated soils in a timely manner, triggering ministry officials to use the "orphan site" provisions of the *Environmental Management Act* to authorize government to undertake remediation actions in order to ensure the protection of human health and the environment. The former tenant has also been charged by the RCMP for drug-related offences.

Windermere Water and Sewer Company Inc.	Invermere	<i>Environmental Management Act</i>	MWR	81	<p>Pollution Prevention Order</p> <p>A Pollution Prevention Order was issued in response to municipal sewage being stored at full capacity in three lagoons without functioning treatment and disposal works.
