

QUARTERLY ENVIRONMENTAL ENFORCEMENT SUMMARY

1st Quarter 2012
(January 1 - March 31)

Protecting the Splendor of our Natural Places

Highlights

The Quarterly Environmental Enforcement Summary for Q1 2012 outlines 4 Orders, 39 Administrative Sanctions, 263 Tickets, and 10 Court Convictions for a combined total of over \$80,000 in penalties.

Notable Highlights this Quarter:

The Ministry of Environment's Conservation Officer Service has teamed up with the Civil Forfeitures Office to add a new tool to their suite of enforcement options. Administrative forfeiture of property involves using an administrative process to forfeit the instruments and proceeds of unlawful activity. These proceedings are not commenced in court; they are an administrative process and are not reliant on criminal charges or convictions arising from the alleged unlawful activity. Recently the Conservation Officer Service used the administrative forfeiture process in an investigation into illegal elk poaching on Vancouver Island to seize three high-powered rifles valued at more than \$7,000. Civil forfeitures initiated by ministry staff will be reported in the highlights of the Quarterly Environmental Compliance and Enforcement Summary.

The Ministry of Forests, Lands and Natural Resource Operations has broadened the range of laws that their Natural Resource Officers can enforce, shortening their response time and improving their effectiveness in the field. A single Natural Resource Officer can now respond to violations that are covered by 16 different statutes, eliminating the need for three to four officers from different agencies responding to one incident. Forests, Lands and Natural Resource Operations Minister Steve Thomson commented that: "this will improve our response time in the field and further streamline our inspection and enforcement procedures". The Ministry of Forests, Lands and Natural Resource Operations currently has 169 compliance and enforcement officers, of which 156 are dedicated to carrying out inspections and investigations.

Windward Resources Ltd. was found guilty of violations under the *Water Act*. The Dawson Creek Provincial Court fined the company \$575 and ordered them to pay a further \$10,000 in creative sentencing to the Habitat Conservation Trust Foundation. Workers for the company had cut away a large section (2 meters high by 20 meters long) of the Pine River bank to be used to access water withdrawal equipment associated with the oil and gas industry. The Habitat Conservation Trust Foundation will invest the \$10,000 towards projects that maintain and enhance the health and biological diversity of British Columbia's fish, wildlife, and habitats so that people can use, enjoy, and benefit from these resources.
