

# QUARTERLY ENVIRONMENTAL ENFORCEMENT SUMMARY

3rd Quarter 2012  
(July 1 - September 30)

*Protecting the Splendor of our Natural Places*

## Highlights

**The Quarterly Environmental Enforcement Summary for Q3 2012 outlines 7 Orders, 37 Administrative Sanctions, 615 Tickets, and 18 Court Convictions and one Community Environmental Justice Forum for a combined total of over \$680,000 in penalties.**

Notable Highlights this Quarter:

The Ministry of Environment has expanded the scope of its enforcement reporting to include Community Environmental Justice Forums (CEJFs), which are a form of restorative justice. A CEJF was held in Dawson Creek to address **EnCana's** 2009 piping failure that resulted in the uncontrolled release of natural gas containing hydrogen sulfide (sour gas) into the environment requiring the evacuation of Pouce Coupe and Tomslake residents. Through a discussion circle, forum participants determined that EnCana would provide restitution of \$250,000 as compensation for the incident. The money will be directed back into the community for enhancements in emergency evacuation preparedness, as well as for wetlands environmental enhancement projects in the South Peace region. EnCana has paid this amount in full.

A CEJF is a venue that uses the principles of restorative justice to address environmental offences committed by regulated companies. A CEJF recognizes the individuals or community affected by the offence and invites representatives to participate in a facilitated session with the company to determine appropriate restitution to restore compliance and repair harm caused by the offence. CEJFs offer an alternative to an adversarial process, providing opportunity for meaningful dialogue, problem-solving and relationship building for all parties. To date, the Ministry of Environment has successfully facilitated 5 CEJFs.

In November 2008, the Ministry of Environment's Conservation Officer Service participated in a joint investigation with Environment Canada following a spill of an estimated 209,344,000 litres of an "acutely lethal effluent" into the Columbia River, near Castlegar. **Zellstoff Celgar Limited Partnership** was fined \$30,000 and ordered to pay an additional \$120,000 to the Habitat Conservation Trust Foundation (HCTF). The investigation led to one charge under the federal *Fisheries Act*, and five charges under the provincial *Environmental Management Act*. The HCTF stated that the \$120,000 court award will go back into conservation programs to improve conditions for fish and wildlife in the Columbia drainage.

## Highlights

**Kenneth Anderson, Kevin Anderson and Gregory Spyker of OK Log Sort Ltd.** were found guilty in court on fraud charges under the *Criminal Code* of Canada. The log sorting operation was found to be manipulating stumpage sample loads by pre-selecting low grade loads in an attempt to reduce log quality and thereby lowering the amount paid to the Crown. The value of the fraud has been estimated between \$338,000 and almost \$600,000. This case was investigated by the Ministry of Forests, Lands and Natural Resource Operation's (MFLNRO) Compliance and Enforcement Special Investigations Unit, the Ministry of Environment's Major Investigations Unit and the RCMP's Log Theft Unit. As a result of this case, MFLNRO has initiated changes to the commercial computer software used at log scaling sites around the province. The trio was fined a total of \$110,000 and are required to adhere to house arrest and community service sentences.

In April 2011, a **Columbia Fuels** tanker truck crashed on Highway 1, near Victoria. The crash caused 43,700 litres of fuel to spill, killing hundreds of juvenile salmon, trout and sculpin in the sensitive Goldstream River. The driver, **James Smith**, pleaded guilty to two charges and has been handed a conditional sentence, is prohibited from driving and will be performing 200 hours of community service in the field of conservation of fish habitat in waters around Vancouver Island. A fisheries officer involved in the spill response and cleanup will be in contact with Smith's probation officer to assign the community service work.

Parkland Fuels Corporation, Columbia Fuel's parent company, has spent more than \$2 million to clean up the fuel spill. The money has been spent primarily on the initial response to the emergency, remediation of the area and associated consultant fees. Ministry staff have been working with Columbia Fuels to develop an environmental restoration funding agreement to cover restoration costs and address the damage to species and habitat as a result of the fuel spill. BC Parks, local First Nations, the Goldstream Hatchery, Fisheries and Oceans Canada and other key stakeholders have subsequently formed the *Goldstream Environmental Roundtable* to work with Columbia Fuels on the final design and implementation of the restoration agreement and other ongoing environmental management issues related to the Goldstream Watershed.

The public plays an important role in keeping our province safe, clean and beautiful. The **Report All Poachers and Polluters (RAPP)** program is a toll free tip-line and web-based service for reporting known or suspected violations of fisheries, wildlife, or environmental protection laws. Calling the RAPP line ensures the crime can be reported anonymously and without risk of confronting the offender. Available 24/7, RAPP is simple, safe and effective. With accurate reporting, RAPP Call Centre staff relay the information to the Conservation Officer Service. Contact RAPP at **1-877-952-7277 (RAPP)** or **#7277** on the TELUS Mobility Network or at <http://www.env.gov.bc.ca/cos/rapp/rapp.html>

## Orders

Issued To	Location	Act	Reg.	Section	Description
Westcoast Energy Inc.	Taylor	<i>Environmental Management Act</i>		77	Information Order An Information Order was issued to address potential pollution at a pigging facility. The operators are required to provide the following information: (1) a list and description of all equipment and facilities on or near the property, identifying locations of any and all flare stacks, vents and any other emission points; (2) a map locating the property with respect to the McMahon Gas Plant and the ambient air monitoring stations in Taylor; (3) data and results of all air monitoring that has been conducted near the facility; (4) results of all emission modelling that has been conducted to predict ambient contaminant concentrations as a result of discharges from or near the facility, including input data, model(s) used and modelling parameters; and (5) a description of all activities that have been undertaken to achieve compliance with section 3(1) of the Oil and Gas Waste Regulation.
Burdett, Robert	Butedale Cannery, Princess Royal Island	<i>Environmental Management Act</i>		81	Pollution Prevention Order A Pollution Prevention Order was issued in response to the potential release of a polluting substance at a reduction plant. The order requires the property owner to: (1) remove all hazardous chemicals from the site and transport them to an authorized hazardous waste disposal facility; and (2) submit to the ministry a final report detailing the types and quantities of the hazardous chemicals removed, transport manifests and an affidavit or receipt from an authorized facility that accepts and disposes of hazardous chemicals.
Hurst, Victor d.b.a. Sonny's Salvage	Slocan	<i>Environmental Management Act</i>		81	Pollution Prevention Order A Pollution Prevention Order was issued to a vehicle storage, dismantling and wrecking operation which was conducting business without the required provisions of the Vehicle Dismantling and Recycling Industry Environmental Planning Regulation. In addition, management of hazardous waste was non-compliant with all requirements of the Hazardous Waste Regulation and waste liquids were not being properly confined or contained, which posed a considerable risk for spills to the environment. The operator has been ordered to cease any further processing of vehicles involving removal of hazardous waste materials, inclusive of crank case oil, transmission fluid, brake fluid, antifreeze, differential oil, refrigerant, mercury switches and car batteries unless these actions are directly supervised by a Qualified Person.
Tenerife Packing Company Ltd.	Port Edward	<i>Environmental Management Act</i>		81	Pollution Prevention Order A Pollution Prevention Order was issued to address a potential spill of fish processing effluent, fish offal and sewage from a concrete septic tank onto a public boat launch, a beach and into marine waters near a public wharf. The order requires the property owner to: (1) immediately cease all discharges to the septic tank; (2) retain a Qualified Person to assess and identify improvements for the works used to collect, treat and discharge the fish processing effluent and sewage; (3) document the assessment of the works, recommended improvements and submit them to the ministry; and (4) upon ministry approval, implement the recommended improvements.
Driedger, Brennan and Rachel	Magna Bay, Shuswap	<i>Water Act</i>		88	Water Act Order A Water Act Order was issued to the owners of a property after it was determined that unauthorized works consisting of a driveway and a culvert were constructed in a creek, contributing to the diversion of the creek from its natural water course. The order requires the owners to re-divert the culvert in a way that allows the creek to be directed back to its natural water course.

## Orders

Issued To	Location	Act	Reg.	Section	Description
Kelly,Carolynn and Irvin	Osoyoos	Water Act		88	Water Act Order A Water Act Order was issued to remove four unauthorized hazardous dams located near Anarchist Mountain in the south Okanagan. The order requires the following: (1) cease and desist storage of any additional water behind the unauthorized dams; (2) submit a decommissioning plan prepared by a Qualified Person (QP) describing the activities required in removal of the dams; (3) remove and fully decommission the dams; and (4) submit a report from the QP confirming that the dams have been decommissioned as required and in compliance with the approved report.
Tapp, Norm	Mission	Water Act		88	Water Act Order A Water Act Order was issued to address unauthorized changes in and about Cram Creek. The order requires the following: (1) proceed with the proposed restoration of the pond; (2) remove the culvert from the pond, allowing for the incorporation of the pond back into Cram Creek; (3) restore Cram Creek and all associated riparian areas; (4) decommission the artificial channel; and (5) ensure all work meets ministry standards for zero impact on aquatic life.
