

QUARTERLY ENVIRONMENTAL ENFORCEMENT SUMMARY

4th Quarter 2012
(October 1 – December 31)

Protecting the Splendor of our Natural Places

Ministry of
Environment

Ministry of
Forests, Lands and
Natural Resource Operations

Highlights

The Quarterly Environmental Enforcement Summary for Q4 2012 outlines 3 Orders, 78 Administrative Sanctions, 665 Tickets, and 19 Court Convictions for a combined total of over \$185,000 in penalties.

Notable Highlights this Quarter:

The Ministry of Environment regulates waste discharges from the mining, smelting and energy industries. These discharges are typically in the form of liquid effluent, solid waste and air emissions. The ministry's role in regulating these industries is to set standards to protect human health and the environment and to enforce those standards. This quarter the ministry issued a Pollution Prevention Order under the *Environmental Management Act* to **Peace River Coal**, requiring the company to address potential seepage from a sediment pond.

Thomas Kendall was found guilty in Masset Provincial Court under section 6(3) of the *Environmental Management Act* for burying half a dump truck load of construction waste on Crown land. Kendall was fined \$500 and ordered to provide 60 hours of community service, using his dump truck and excavator. The work is valued at approximately \$8,250. Kendall was also ordered by the court to remove all the materials deposited on the Crown land and must remediate the area to the satisfaction of ministry staff.

There are national and international markets of collectors and consumers who pay thousands of dollars for illegally harvested wildlife parts such as bear paws and gall bladders. The ministry's Conservation Officer Service (COS) is mandated to protect the province's wildlife resources. This quarter three hunters were convicted in court for poaching violations under the *Wildlife Act*. Airport security notified the COS after discovering bear parts in the hunters' checked baggage prior to boarding their flight to Vancouver from the Haida Gwaii. **Chang Shun Huang, Jin Yun Zhang and Xu Yu Zheng** pled guilty to charges of illegally harvesting black bears, and faced a total of almost \$8,000 in penalties.

The COS relies on tips from the public to help catch poachers and polluters, the **Report All Poachers and Polluters (RAPP)** program is a toll free tip-line and web-based service that allows the public to report known or suspected violations of fisheries, wildlife, or environmental protection laws – anonymously and without risk of confronting the offender. Available 24/7, RAPP is simple, safe and effective. It is based on the principle that someone other than the criminal has information that can solve the crime. Orders

Issued To	Location	Act	Reg.	Section	Description
Brian Baker and Patrick Baker	Fort George / Chilako River	<i>Environmental Management Act</i>		81	<p>Pollution Prevention Order</p> <p>A Pollution Prevention Order was issued in response to concerns about potentially polluting substances, specifically gasoline, engine oil, automotive coolant and other vehicle fluids, that could be leaking from an abandoned vehicle into the Chilako (Mud) River. The order requires the immediate removal of the vehicle from the river in such a manner as to not cause the release of any pollutants.</p>
Peace River Coal Inc.	Peace / Trend Mine	<i>Environmental Management Act</i>		81	<p>Pollution Prevention Order</p> <p>A Pollution Prevention Order was issued in response to unauthorized discharges from a sediment pond. The discharges appear to be the result of flawed construction practices which are compromising the structural integrity of the pond embankment. Ministry staff believe the discharges could impact fish bearing waters. The order requires the operator to: (1) immediately cease all discharges from the pond; (2) submit to the ministry a written report provided by a QP that includes: a) verification and details of measures taken to cease the discharges from the pond; b) a plan to prevent clean surface water from entering the pond; and c) a long-term plan, with a firm implementation schedule, to repair the pond and prevent unauthorized discharges; (3) provide monthly updates on the status of the repairs; (4) submit proof of the completion of the repair works designed, supervised and verified by a QP, within 30 days of completion; (5) adhere to monitoring related requirements; and (6) report sampling results to ministry staff on a weekly basis until all discharges have ceased.</p>
Klein, David d.b.a.: Digger Dave Excavating	Prince George / Clucuz Lake	<i>Environmental Management Act</i>		83	<p>Pollution Abatement Order</p> <p>A Pollution Abatement Order was issued after an inspection and subsequent investigation revealed municipal solid waste in the form of demolition and construction material being unlawfully deposited at a property. The order requires: (1) all waste material be relocated to an authorized municipal solid waste disposal site; (2) upon removal of the waste material, notification be made in writing to the ministry, including the new location of the waste material; and (3) provide photos of the property showing that it has been cleaned as required.</p>
