HAZARDOUS WASTE TRANSPORT LICENCE RENEWAL NOTICE AND APPLICATION

Your Hazardous Waste Transport Licence expires on 21-Mar-2018. Carriers that have not received their renewed licence, in writing, from the Ministry of Environment and Climate Change Strategy are not authorized to transport hazardous waste in the province of British Columbia.

This letter is your licence expiration reminder and renewal application form. Carriers are responsible for ensuring that they have obtained a valid licence before the expiry date. Processing is on a first come, first served basis; please, allow **at least 3 weeks** for processing. If the application is not complete or there are major changes, processing may be delayed.

- All Transport Licence renewals, **except** “waste batteries only”, must include the renewal fee of \$200.00, paid in full, prior to the renewed licence being issued. An expired licence will be processed as a renewal (\$200.00 fee) if all required information and documentation is received at this office **within 30 business days** after the licence expiry date. After that time, the fee is \$500.00. Payment must be made by cheque in Canadian currency, payable to the **Minister of Finance**.
- Please use this application form to renew your licence. The “Carrier’s Response Required” boxes and “Certification” section must be completed. If there are significant changes, you must use the more detailed application form, in addition to this renewal application form. The detailed form can be found on-line at: **www.gov.bc.ca** (environment → waste management → hazardous waste → transporting hazardous waste → transport licence application process → licence to transport hazardous waste application and instructions)
- All renewal applications must include: completed renewal application form, supporting documents and, if applicable, the fee.

Sincerely,

Grace Kelly
 Hazardous Waste Officer
