

Ref: 143516

August 17, 2011

Mr. Bob Twidle
President
Canadian Battery Association
130 Adelaide St W
Toronto ON M5H 3P5

Dear Mr. Twidle:

Thank you for submitting the Canadian Battery Association's British Columbia Stewardship Plan dated June 17, 2011, to fulfill the requirement under section 4 of the Recycling Regulation. I apologize for the delay in responding.

I have completed my review of the submission and hereby approve the Canadian Battery Association's British Columbia Stewardship Plan for lead acid batteries. Please be advised that this approval does not extend to any materials or content contained in the plan that are extraneous to the requirements of section 5 of the Recycling Regulation.

Please note that the Ministry of Environment, as part of its Industry Product Stewardship compliance strategy, now requires third party testing to confirm prescribed non-financial information reported in industry stewardship agency annual reports. The enclosed document entitled "Guiding Principles - Product Stewardship Agency Non-Financial Information Testing", dated November 15, 2010, contains information and direction for stewardship agencies on the required procedures. For convenience, MoE can provide electronic template copies of the test procedures and related documents at your request. To obtain the electronic templates or to obtain clarification of the ministry's expectations please contact Greg Tyson at (250) 387-9774.

...2

I look forward to working with you to ensure your program is successfully implemented. If you have any questions about this approval or the implementation of your plan, please contact David Lawes at (250) 387-3588 or David.Lawes@gov.bc.ca.

Sincerely,

A handwritten signature in cursive script that reads "David Ranson".
