Dear NAME:

We are reaching out to provide you with new information about the Ministry of Children and Family Development's (MCFD) emergency measures to support you through the COVID-19 pandemic. Minister Mitzi Dean outlines some of these changes in [her video](#). Specifically, we want you to know that your current Youth Agreement or Independent Living Agreement can be extended up until March 31, 2022. Talk to your MCFD or Delegated Aboriginal Agency (DAA) worker about these opportunities.

You may also be interested in enrolling in the [Agreements with Young Adults \(AYA\) program](#). The AYA Program continues to be on a needs-based assessment and has increased flexibility to make it easier for you to access life skills and rehabilitative or mental health programs. There are also fewer weekly hourly requirements, the inclusion of a new cultural learning program, and the ability for you to participate in AYA for online programming.

We have also created new opportunities for you to work with your worker if you are having trouble maintaining the AYA Program requirements. For example, you might be struggling to meet the hours per week requirement for a rehabilitation or mental health program and need some additional flexibility to be successful. Whatever the case may be, if you need additional support, talk to your ministry or DAA worker to apply for an exception.

Other Resources You May Be Interested In

The TELUS [Mobility for Good \(M4G\)](#) program can provide you with a free cell phone and data plan for two years, followed by a low-cost data option of \$35/month. This will help you stay connected and maintain access to the important information that you need during this time.
