from individual parcels is invalid. Please refer to the 2011 Regional District of East Kootenay Land Use Inventory cover and land use on legal parcels. Legal parcel descriptions, land use and land cover may have changed since aerial photography, in combination with local knowledge. This data represents a snapshot in time of land data visible from publicly accessible lands and roads. Where visibility is limited, data may have been interpreted.

Rankin
The Agricultural Land Use Inventory (ALUI) System employs a "windshield" survey method which captures Land Cover captured July - August 2011. This data represents a snapshot in time of land use in the Elk Valley Subregion. RDEK sourced from RDEK and ICIS in 2011.

Report for more information on data limitations (http://www.al.gov.bc.ca/resmgmt/sf/gis/projects.htm).
The Agricultural Land Use Inventory (ALUI) System employs a "windshield" survey method which captures land cover and land use on legal parcels. Legal parcel descriptions, land use and land cover may have changed since data visible from publicly accessible lands and roads. Where visibility is limited, data may have been interpreted from aerial photography, in combination with local knowledge. This data represents a snapshot in time of land cover and land use on legal parcels. Land use data is based on information obtained from the Regional District of East Kootenay. Legal parcel descriptions, land use and land cover may have changed since the dataset was collected. Using this data to extrapolate farm management practices or environmental impacts from individual parcels is invalid. Please refer to the 2011 Regional District of East Kootenay Land Use Inventory Report for more information on data limitations (http://www.al.gov.bc.ca/resmgmt/sf/gis/projects.htm).
