LIMITATION OF LIABILITY AND USER'S RESPONSIBILITY

The primary purpose of this B.C. Irrigation Management Guide is to provide irrigation professionals and consultants with a methodology to assess the irrigation system performance and manage the system effectively.

While every effort has been made to ensure the accuracy and completeness of these materials, additional materials may be required to complete more advanced assessments. Advice of appropriate professionals and experts may assist in completing assessments that are not covered in this Guide.

All information in this publication and related materials are provided entirely "as is" and no representations, warranties or conditions, either expressed or implied, are made in connection with your use of, or reliance upon, this information. This information is provided to you as the user entirely at your risk.

The British Columbia Ministry of Agriculture, Food and Fisheries and the Irrigation Industry Association of British Columbia, their Directors, agents, employees, or contractors will not be liable for any claims, damages or losses of any kind whatsoever arising out of the use of, reliance upon, this information.

Preface	iv
Limitation of Liability and Users Responsibility	v
How to Use this Publication	xix

1 INTRODUCTION TO AN IRRIGATION MANAGEMENT PLAN.....1

1.1. What is an Irrigation Management Plan ?	1
1.2. Benefits of an Irrigation Management Plan.....	2
1.3. How to develop an Irrigation Management Plan.....	2
1.4. Protecting the Environment while Improving Farm Protection	3

2 ENVIRONMENTAL CONCERNS OF IRRIGATION WATER SUPPLY.....5

2.1. Water Quality.....	5
Water Quality Concerns	5
Water Contaminants	6
Oxygen in Water	8
Water Temperature.....	8
Irrigation with Water of Poor Quality	8
Protection of Water Quality	10
Water Intakes.....	10
Backflow Prevention	11
Leachate	11
Pumps.....	11
Wells.....	12
Well Construction.....	12
Abandoned Wells.....	13
Well Location	13
2.2. Water Quantity	13
Water Quantity Concerns	13
Water Withdrawal	13
Structures for Water Control	14
Management of Water Quantity	14
Knowledge of Farm Requirements	14
Groundwater Use.....	15
Surface Water Use	15

Water Licence	15
Annual Water Use	15
Irrigated Area.....	15
Water Storage	16
Water Withdrawal Rates	16
Intake Maintenance	16
2.3. Fish Protection	16
Fish Passage at Weirs, Dams, etc.	17
Habitat Disturbance during Intake Installation	17
Fish Screening at Water Intakes	17

LEVEL 1

3 CLIMATE 19

3.1. Climate Information.....	19
Evapotranspiration.....	19
Effective Precipitation	20
Dry Periods.....	20
Wet Periods.....	20
Large Amounts of Precipitation	20
3.2. Historical Climate Information for Irrigation Planning	21
Peak Flow Rate and Annual Crop Water Requirements	21
Peak Flow Rate.....	24
Annual Crop Water Requirement.....	27

4 BASIC ENVIRONMENTAL FARM ASSESSMENT FOR IRRIGATION 31

4.1. Preparation of an Irrigation Farm Plan.....	31
4.2. Irrigation System Audit.....	39
4.3. System Peak Flow Rate Check	42
Pre-Assessment – Total Irrigated Area	42
Step 1. Calculated Peak Flow Rate.....	45
Step 2. Actual System Flow Rate	45
Water Meter.....	46
Water Purveyor	46
Pump Curve	46
Sprinkler System Output Flow Rate.....	46
Trickle System Output Flow Rate.....	47
Step 3. Calculated Versus Actual Irrigated System Flow Rates.....	48

4.4.	Annual Water Use Check	51
	Step 1. Calculated Annual Water Requirement	51
	Sprinkler Systems	52
	Trickle Systems.....	52
	Step 2. Actual Annual Water Use.....	53
	Water Meter	53
	Pump Operation.....	53
	Irrigation System Operation	54
	Conversion of Inches of Water to Acre-Feet.....	55
4.5.	Water Diversion and Conveyance Loss Checks	61
	Water Diversion	61
	Conveyance Losses	62
4.6.	Screen Area Check	68
	Fish Screening for Water Intakes	68
4.7.	Irrigation Water Quality Check	71
	Impacts of Irrigation Water Quality.....	71
	Soil	71
	Crops	72
	Human Health	73
4.8.	Irrigation System Uniformity Check.....	75
	System Uniformity	76
	Sprinkler System.....	76
	Trickle/Drip System.....	76

LEVEL 2

5	PLANTS, SOIL AND SOIL WATER	81
5.1.	Plants	81
	Rooting Depth	81
	Amount of Water Available to the Crop.....	83
	Crop Development	83
5.2.	Soil	84
	Understanding Soil's Role in Irrigation	84
	Soil Characteristics.....	84
	Soil Texture.....	84
	Soil Structure	86

Soil Layering.....	86
Infiltration Rate	86
Maximum Application Rate (AR).....	86
Soil Sampling.....	87
Soil Boundaries	87
Selection of Soil Pit and Soil Sampling	87
Sampling Interval Depth.....	87
Determination of Soil Texture	88
Hand-Feel Method.....	88
Jar Test	89
Laboratory Test	92
5.3. Soil Water.....	93
Parameters for Soil Water	93
Available Water Storage Capacity (AWSC)	93
Soil Water Storage	94
5.4. Soil-Crop Report.....	95

6 IRRIGATION SYSTEM ASSESSMENT 99

6.1. Selection of an Irrigation System	100
Options.....	100
Irrigation Systems at a Glance	100
Factors Affecting Selection of Irrigation Systems	101
Design.....	105
Operation	105
Maintenance	106
6.2. Assessment of Sprinkler Systems	106
Step 1. Assessment of Sprinkler System Equipment and Layout.....	107
❶ Nozzle Size Check and Nozzle Flow Rate Check	107
❷ Lateral Pressure Distribution Check.....	109
❸ Sprinkler Spacing Check	120
Step 2. Assessment of Sprinkler System Performance.....	123
❹ Application Rate Check	123
❺ Maximum Set Time Check	124
❻ Irrigation Interval Check	125
6.3. Assessment of Gun Systems.....	132
Step 1. Assessment of Gun System Equipment and Layout.....	133
❶ Nozzle Size Check and Nozzle Flow Rate Check	133
❷ Pressure Distribution Check.....	133
❸ Gun Spacing Check	134
Step 2. Assessment of Gun System Performance	135

④ Application Rate Check.....	135
⑤ Travel Speed Check	137
⑥ Irrigation Interval Check.....	138
6.4. Assessment of Centre Pivot Systems	144
Step 1. Assessment of Centre Pivot System Equipment and Layout.....	144
① Nozzle Check.....	144
② Distribution Uniformity Check	145
Step 2. Assessment of Centre Pivot System Performance.....	146
③ Rotation Time Check	146
④ Irrigation Interval Check.....	148
6.5. Assessment of Trickle/Drip Systems	154
Step 1. Assessment of Trickle/Drip System Equipment and Layout.....	154
① Emitter Flow Rate Check	154
② Emitter Spacing Check	158
③ Pressure Distribution Check (Optional)	161
Step 2. Assessment of Trickle/Drip System Performance	165
④ System Operating Time Check.....	165

7 IRRIGATION SCHEDULING.....173

7.1. Soil Moisture Monitoring.....	174
Hand-Feel Method.....	175
Soil Moisture Monitoring Devices	176
Tensiometers	176
Electrical Resistance Blocks.....	176
Time Domain Reflectometry (TDR)/Time Domain Transmissivity (TDT)	177
Locations of Soil Moisture Devices	178
Sprinkler System.....	178
Trickle System	178
Other Sensor Location Options	179
Readings of Soil Moisture Sensors	179
Volumetric Soil Moisture	179
Soil Water Tension	180
Scheduling Methods Using Soil Moisture Sensors	181
Drip/Trickle and Micro-Jet Systems	181
Sprinkler System.....	182
Micro-Sprinkler System.....	183
7.2. Climate Monitoring	185
Climate Information on the Internet.....	185
On-Farm Collection of Climatic Information	185
Climate Stations.....	186
Evaporation Pans	186

	Rain Gauges	188
	Atmometers	189
7.3.	Crops and the Climate	189
	Crop Water Use	189
	Conversion of Crop Coefficients	190
	Crop Water Use and Growth Stages	190
	Annual Crops.....	190
	Selection of a Crop Coefficient	191
	Vegetable and Berry Crops	191
	Alfalfa and Other Forage Crops	192
	Apples and Grapes	193
7.4.	Irrigation Scheduling of Sprinkler Systems	195
	Water Budget Method	195
	Soil Water Capacity and Deficit.....	195
	Effective Precipitation (EP)	196
	Net Depth of Irrigation Water Applied (IRR).....	196
	Crop Evapotranspiration (ET _c)	197
7.5.	Irrigation Scheduling of Trickle Systems	199
	Plant Water Requirement Method	199
	Water Budget Method	201

LEVEL 3

8	ENERGY CONSERVATION AND OPERATING COSTS	205
8.1.	Methods of Reducing Operating Costs.....	205
	Irrigation System Efficiency	205
	Water Conservation	206
	Irrigation Scheduling	207
	Assessing Pump Performance and Operating Costs	207
8.2.	Irrigation Water Supply.....	207
8.3.	Pump Selection and Assessment.....	208
	Pump.....	209
	Centrifugal Pump.....	209
	Turbine and Submersible Pumps.....	209
	Pump Assessment	209
	Total Dynamic Head Check.....	210
	Static Suction Head.....	210

	Elevation Head.....	210
	Pressure Head.....	210
	Friction Head.....	210
	Pump Horsepower.....	215
8.4.	Operating Cost.....	218
	Water Licence Fee.....	218
	Water Purveyor Costs.....	219
	Pumping Costs.....	219
9	CHEMIGATION, FROST PROTECTION AND CROP COOLING.....	225
9.1.	Chemigation.....	225
	Safety.....	226
	Environmental Protection.....	226
	Preparing a Chemigation Worksheet.....	227
	Sprinkler Irrigation Worksheet.....	227
	Trickle/Drip Irrigation Worksheet.....	228
9.2.	Frost Protection.....	230
	Water Supply.....	231
	Surface Water.....	231
	Irrigation District or Municipal Supply.....	231
	Groundwater.....	231
	Runoff Control.....	231
9.3.	Crop Cooling.....	232
10	USE OF RECLAIMED WATER.....	233
10.1.	Municipal Sewage Regulation.....	233
	Category 1: Restricted Public Access.....	233
	Category 2: Unrestricted Public Access.....	234
10.2.	Code of Practice for the Use of Reclaimed Water.....	235
	Considerations for Use of Reclaimed Water.....	235
	Crop Irrigation.....	235
	General Irrigation.....	236
	Cross-Connection Control.....	236
	Soil Considerations.....	237
	Specific Design Suggestions.....	237

APPENDICES

A. UNIT CONVERSIONS	A1
B. SPRINKLER AND GUN NOZZLE SPECIFICICATIONS	B1
Table B.1 Sprinkler Nozzle Specifications – 30' x 30' Spacing	B2
Table B.2 Sprinkler Nozzle Specifications – 30' x 40' Spacing	B3
Table B.3 Sprinkler Nozzle Specifications – 30' x 60' Spacing	B4
Table B.4 Sprinkler Nozzle Specifications – 40' x 40' Spacing	B5
Table B.5 Sprinkler Nozzle Specifications – 40' x 50' Spacing	B6
Table B.6 Sprinkler Nozzle Specifications – 40' x 60' Spacing	B7
Table B.7 Sprinkler Nozzle Specifications – 60' x 60' Spacing	B8
Table B.8 Gun Nozzle Specifications – Series 100 guns 24° Trajectory	B9
Table B.9 Gun Nozzle Specifications – Series 150 guns 24° Trajectory	B10
Table B.10 Gun Nozzle Specifications – Series 200 guns 24° Trajectory	B11
C. BLANK WORKSHEETS	C1
