Contact information of owner of premises, if different from above:

Contact information for operator of premises, if different from above:
Date this order is issued: <u>May 12, 2022</u>
Date this order takes effect, if different:
Reference Number: #AIV2022-06

THE PERSON(S) SUBJECT TO THIS ORDER MUST COMPLY WITH THIS ORDER.

Reason for Order				
<p>The inspector reasonable believes the following: This order and the actions listed are believed necessary under s. 39(1)(c)(i) of the <i>Animal Health Act</i> to address a condition that presents a significant risk of causing a threat to animal health, specifically: to prevent the occurrence and spread of highly pathogenic H5 and H7 avian influenza A virus. Based on the current risks associated with the transmission of the Highly Pathogenic Avian Influenza virus in commercial poultry in other jurisdictions, and the detection of avian influenza A on a commercial poultry premises and backyard flocks in the province, there is a need to modify management practices.</p> <p>Background information: The highly pathogenic H5 and H7 avian influenza A viruses are reportable diseases under the federal <i>Health of Animals Act</i> and reportable and notifiable diseases under the provincial <i>Animal Health Act</i>.</p> <p><u>Currently there are ongoing Avian Influenza (H5N1) investigations in all four Western Provinces, and Eastern Canada, that include both commercial and non-commercial poultry. In British Columbia, Avian Influenza has been identified in poultry on Vancouver Island, and in the Lower Mainland and the Interior. As wild birds (particularly waterfowl) are considered the main source of the virus, actions taken to limit exposure are warranted. Typically risk of transmission is considered highest in the spring and fall during peak bird migration.</u></p> <p>The B.C. Poultry Association (BCPA) has introduced the highest biosecurity “code Red” standards in recognition of the current level of risk. As individuals who maintain backyard flocks of birds are not covered by the BCPA and not regulated by the Ministry of Agriculture and Food, additional measures need to be taken to protect these birds from virus transmission as well.</p>				
This Order is in Respect of the Following				
Animal(s) (specific):				
Identification #	Age	Sex	Species	Description

Date

Orders

You have been issued an order. Failure to comply with an order is an offense under s. 81 of the *Animal Health Act*. If this order is posted, you must not remove, alter, or deface it. If an inspector believes that you are not adequately complying with this order, an inspector is authorized to enter into the place described in this document and take action to ensure this order is carried out. You are liable for all costs of any work that the inspector authorizes to be carried out to ensure compliance with this order.

You may request reassessment, reconsideration, or review of this order. A request must be in the form and manner required by the Chief Veterinarian.

Reassessment

You may request the issuing inspector to reassess the circumstances under which this order was made, assess the extent to which it has been complied with, and determine if it continues to be necessary. The inspector may decide to confirm, vary, or terminate this order.

Reconsideration

If you have additional relevant information which was not available when the inspector made the order you may request the issuing inspector to reconsider this order. The inspector may

- Vary, confirm, or rescind this order;
- Delay the date the order takes effect or suspend the order, if this will not be a risk to animal or public health; or,
- Reject your request if the information is not new or not relevant.

This order continues to be in effect while the inspector reconsiders it unless the inspector agrees in writing to suspend it. You will receive written reasons for the reconsideration decision. You may not request a second reconsideration.

Review

If you have completed a request for reconsideration you may request a review of this order. This review will be based on the existing record. The reviewer may

- Vary, confirm or rescind the order; or
- Delay the date the order takes effect or suspend the order, if this will not be a risk to animal or public health; or,
- Refer the matter back to the person who made the order, with or without directions.

The order continues to be in effect during the review. You will receive written reasons for this decision. You may not request further review under the *Animal Health Act*, but may have other recourse.

Appendix A

Section 50 of the *Animal Health Act* states

50 An order ceases to have effect on the date or in the circumstances stated in the order, or if no date or circumstances are stated, as follows:

- (a) If an order is served by posting the order, or notice of the order, in or on a place, on the date the order or notice is removed from the place by the minister or the inspector who made the order, or by a person acting under the direction of either of them;
- (b) If an order is served by publishing the order, or notice of the order, on the date the inspector who made the order publishes a notice that the order has been terminated;
- (c) If an order is made under section 41 (m) [*general orders*], on the date the person subject to the order provides evidence of compliance as required by the order;
- (d) In any other case, on the date the inspector who made the order provides notice by any means to the person subject to the order that the order is terminated.
