Emergency Use Pesticide Registrations

June 20, 2018

The following table includes recent emergency use pesticide registrations valid in British Columbia for a limited time.

See the last column for the dates the product is registered for the indicated crop pests. "Pending" products are not yet registered but have been submitted to Pest Management Regulatory Agency (PMRA) for emergency registration. "Denied" products were not approved by PMRA for emergency registration.

Please refer to the pesticide label for confirmation of current allowable uses.

For more information and/or copy of the current label consult the Health Canada's [pesticide label search tool](#) or contact the [provincial minor use coordinator](#) at 1-888-221-7141 or 604-556-3001.
