Requirements for Fisher Vendors

A Provincial Fisher Vendor licence is required by commercial fishers who sell their own catch:
- to the public (for their own consumption), directly from the harvest vessel, or
- to restaurants or retail stores.

Holding a Fisher Vendor licence does not authorize the individual to sell seafood at farmers’ markets or road-side. Consult your Health Authority for further information.

Fisher Vendors must:
- ensure safe food,
- report unsafe food, and
- ensure they meet all regulatory requirements including those seen on the reverse side.

Commercial fishing is regulated by Fisheries and Oceans Canada.
Fisher Vendor Requirements Checklist

Complete this checklist to make sure you are in compliance with the Fish and Seafood Licensing Regulation requirements

- Vessel constructed with suitable materials that are durable and easy to clean – s. 32
- Washrooms and handwashing stations are available and adequate – s. 33
