LEGAL DESCRIPTION OF UNHARVESTED LAND	CROP	ACRES INSURED	ACRES NOT HARVESTED

EXPLANATION:

- 1) The above information may be used to calculate an advance claim.
- 2) A final claim will be calculated after harvest is completed in the spring, following the crop year listed above.
- 3) If harvest is not possible next spring, you must notify us **BEFORE** putting the land to other use.

DECLARATION:

- 1) I declare that the above is a true, accurate and complete record of all unharvested production by the insured or which came into the insured's possession, whether produced from the insured farm or otherwise.
- 2) I authorize Production Insurance, Ministry of Agriculture, to perform all audit procedures it deems necessary to prove this declaration and to appoint its agents to perform these procedures
- 3) I certify that I will repay any amount determined to be an excess claim, by reason, the final harvested yield to count exceeds the estimated yield used to calculate the interim claim. If my total production after spring harvest is greater than my insured guarantee, any advance claims will have to be repaid.
