BC Ministry of Agriculture

## INSTRUCTIONS – GENERAL

1. Print your name (as stated on Schedule A), the current crop year, and the commodity to be insured.
  2. If known, write your Production Insurance Policy Number and/or Grower Number.
- 

## INSTRUCTIONS – PRODUCTION HISTORY FOR THIS FARM

1. For each table, indicate the variety of crop to be insured.
2. Report all production for each variety from the last five years where you possess acceptable records<sup>3</sup>. For each year, indicate how the crop was disposed of: wholesale (processor, packinghouse, broker, elevator, etc.) direct sales (off farm sales), or own use.

<sup>1</sup>**Total Production** – We require **direct evidence** (e.g. sales receipts or third party records such as packinghouse or processor records) which clearly indicates weight in lbs., tons, bales, big bins, etc. Where you do not have this direct evidence we may use a provincial production average for the commodity.

<sup>2</sup>**Planted Acres** – Provide planted acreage whenever you have filled in the Total Production column. Your records should prove an ownership or leasehold interest in the land although they may not substantiate the exact acreage reported.

<sup>3</sup>**Acceptable Records** – Your annual acreage and production figures will be used providing you possess and retain documents which substantiate the quantities reported.

---

## DECLARATION

1. Read the Declaration.
  2. If you are in agreement with the Declaration Statement, sign and date on the lines indicated.
