

## Inventory of Traceability System Vendors

Disclaimer: This list has been compiled for reference only. If you like to be added to this list, please contact [bctraceability@ca.pwc.com](mailto:bctraceability@ca.pwc.com).

Notes:

- Entries highlighted in green are products that have been previously adopted by recipients of Traceability Program funding.
- “Agrifood ERP” refers to enterprise resource planning (ERP) process management software that integrates multiple business applications, including a traceability system, and is targeted to agrifood businesses.
- “Traceability – agrifood” refers to traceability software with a focus on agriculture or agrifood business needs.
