NOTES AND DEFINITIONS ............................................................................................................................................. 23
The value of exports of British Columbia agrifood and seafood increased 21 per cent in 2015. Of this, agrifood exports rose 23 per cent while seafood exports rose 15 per cent.

In 2015, B.C. exported $3.5 billion worth of agrifood and seafood products to 159 markets.

Agrifood product shipments contributed 68 per cent and seafood shipments contributed 32 per cent to the total value of provincial agrifood and seafood exports in 2015.

The top export commodities in 2015 were farmed Atlantic salmon valued at $411 million and food preparations for manufacturing and natural health products valued at $294 million.

The United States was B.C.’s largest export market with a 72 per cent share in 2015 worth $2.5 billion.

Wine exports grew 12 per cent, reaching $9 million in value. China was the top destination for wine shipments.

Commodities with the greatest growth from 2014 to 2015 included:
- Cranberries up 91 per cent to $56 million
- Farmed Atlantic Salmon up 61 per cent to $411 million
- Mushrooms up 49 per cent to $131 million

Markets showing significant growth from 2014 to 2015 included:
- South Korea up 62 per cent to $54 million
- Ukraine up 56 per cent to $16 million
- China up 32 per cent to $343 million

B.C. SEAFOOD EXPORT HIGHLIGHTS – 2015

- B.C. exported $1.1 billion worth of seafood products to 79 different markets in 2015, an increase of 15 per cent from 2014.

- Ninety per cent of B.C.’s total seafood export value was generated by its top five markets: U.S., China, Japan, Hong Kong and Vietnam.

- Exports to the U.S. increased by 28 per cent in 2015, from $541 million in 2014 to $695 million in 2015.

- Exports of salmon and trout products reached $578 million in 2015, an increase of 18 per cent from 2014.

- Exports of groundfish products increased by 23 per cent, rising from $126 million in 2014 to $155 million in 2015.

- Invertebrate and marine plant exports rose to $273 million in 2015, an eight per cent increase over the $253 million export value in 2014.

- Exports in the “other seafood products and species” category increased by nine per cent, rising from $113 million in 2014 to $124 million in 2015.

NOTES AND DEFINITIONS

- “Agrifood” includes agrifood products produced by farmers, growers and ranchers in British Columbia, as well as food, beverage and tobacco products manufactured by B.C.’s food, beverage and tobacco processors (regardless of where ingredients were sourced from). Agrifood does not include any fish, shellfish or marine plant products.

- “Seafood” includes fish, shellfish and marine plants and their products harvested or cultured in marine and freshwater as well as seafood products manufactured by B.C.’s seafood processors.

- “Food Preparations for Manufacturing and Natural Health Products” includes pastes, powders and flavourings used by food manufacturers, as well as natural health products.

- “Industrial By-Products & Residues” includes bran, waxes, animal or vegetables fats and other by-products and residues from food and beverage manufacturing.

Export data provided in this analysis refers to B.C. Domestic Exports. Domestic exports consist of the exports of all goods grown, produced, extracted or manufactured in the province (British Columbia) and leaving the province (through customs) for a foreign destination. Exports of imported merchandise that has been substantially enhanced in value are also included.

Export data provided in the “Agrifood” analysis has been revised from raw data released by Statistics Canada to account for apparent discrepancies regarding exports of soya beans, rapeseed/canola oil and oilcakes that are believed to come from other Canadian provinces. Excluded soya bean products totaled $6.2 million in 2013, $1.4 million in 2014, and $1.2 million in 2015. Excluded rapeseed/canola oil and oilcake products totaled $271.0 million in 2013, $310.0 million in 2014, and $315.0 million in 2015. Therefore, the total export values for B.C. “Agrifood” provided in this analysis have been reduced by $277.2 million in 2013, $311.3 million in 2014 and $316.2 million in 2015. The Ministry of Agriculture is working with Statistics Canada to investigate these discrepancies.
