• Ability to develop, implement or work within performance management and accountability frameworks.

• Ability to utilize financial and business data to make business decisions and recommendations.

• Ability to build and maintain cooperative and productive relationships and effectively liaising with internal and external stakeholders.

BEHAVIOURAL COMPETENCIES
• Business Acumen is the ability to understand the business implications of decisions and the ability to strive to improve organizational performance. It requires an awareness of business issues, processes and outcomes as they impact the client’s and the organization's business needs. (L3)

• Impact and Influence is the ability to influence, persuade, or convince others to adopt a specific course of action. It involves the use of persuasive techniques, presentations of negotiation skills to achieve the desired results. (L4)

• Leadership implies a desire to lead others, including diverse teams. Leadership is generally, but not always, demonstrated from a position of formal authority. The "team" here should be understood broadly as any group with which the person interacts regularly. (L5)
• Relationship Building is working to build or maintain ethical relationships or networks or contacts with people who are, or may be, potentially helpful in achieving work-related goals and establishing advantages. These people may include customers, clients, counterparts, colleagues, etc. (L3)

• Results Orientation is a concern for surpassing a standard of excellence. The standard may be one’s own past performance (striving for improvement); an objective measure (achievement orientation); challenging goals that one has set; or even improving or surpassing what has already been done (continuous improvement). Thus, a unique accomplishment also indicates a Results Orientation. (L4)

• Service Orientation implies a desire to identify and serve customers/clients, who may include the public, co-workers, other branches/divisions, other ministries/agencies, other government organizations, and non-government organizations. It means focusing one’s efforts on discovering and meeting the needs of the customer/client. (L4)

• Strategic Orientation is the ability to link long-range visions and concepts to daily work, ranging from a simple understanding to a sophisticated awareness of the impact of the world at large on strategies and on choices. (L5)
