

Field Card use for LPC supervisors to support worker EMS tailgate training

BEFORE STARTING WORK KNOW ABOUT:

1. Environmental and Sustainable Forest Management Certification and Policies

- Complying with the applicable Laws and Regulations.
- Prevent / minimize impacts on the environment.
- Practice of sustainable forestry.
- Continual Improvement.

2. Emergency Response Plan:

- Know your eERP roles and responsibilities.
- Be prepared for emergencies i.e. fire, spills and erosion events
- Know the location of all applicable Emergency Response equipment (spill kits, hand tools, fire suppression equipment)

3. Environmental Field Procedures:

- EFP #1 “General” applies to all workers.
- EFP #2 “Supervisors” applies to project and/or onsite supervisors.
- EFP #3 “Developing & Planning” applies to planning & development activities.
- EFP #4 “Roads Bridges and Major Culverts” applies road construction, maintenance, inspections and deactivation activities.
- EFP #5 “Harvesting” applies to all phases of harvesting activities.
- EFP #6 “Fuel Handling” applies to fuel handling activities.

Know which EFP’s apply to your job, and review them on your own and with your supervisor before starting work. Copies available from your supervisor or BCTS representative.

4. Stop Work Procedures (See EFP’s in the EMS Binder)

If you’re not sure, **Stop Work** and contact your project supervisor or BCTS representative.

5. What to report to Supervisor and BCTS:

- Hazardous Material Spills, Uncontrolled Fires & Erosion / Landslide Events.
- Potential non-compliances and non-conformances.
- Unidentified resource features, values or sensitive areas.
- Species at Risk sightings.
- Changes to project plan.
- Safety hazards, close calls/near misses or accidents.
