[AA–122–857]

Certain Softwood Lumber Products From Canada: Final Results of Antidumping Duty Administrative Review; 2019

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) determines that producers and/or exporters subject to this administrative review made sales of subject merchandise at less than normal value during the period of review (POR), January 1, 2019, through December 31, 2019.

FOR FURTHER INFORMATION CONTACT: Jeff Pedersen (Canfor) or Maisha Cryor (West Fraser), AD/VDI Operations, Office IV, Enforcement and Compliance, International Trade Administration,
Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–2769 or (202) 482–5831, respectively.

SUPPLEMENTARY INFORMATION:

Background

Commerce published the Preliminary Results on May 27, 2021. This review covers 273 producers/exporters of subject merchandise, including two mandatory respondents, Canfor, and West Fraser. For events subsequent to the Preliminary Results, see Commerce’s Issues and Decision Memorandum. The final weighted-average dumping margins are listed below in the “Final Results of Review” section of this notice. Commerce conducted this administrative review in accordance with section 751(a) of the Tariff Act of 1930, as amended (the Act).

Scope of the Order

The product covered by this review is softwood lumber from Canada. For a full description of the scope, see the Issues and Decision Memorandum.

Analysis of Comments Received

All issues raised in the case briefs filed in this administrative review are addressed in the Issues and Decision Memorandum. A list of the topics discussed in the Issues and Decision Memorandum is appended to this notice. The Issues and Decision Memorandum is a public document and is available electronically via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Services System (ACCESS). ACCESS is available to registered users at https://access.trade.gov. In addition, a complete version of the Issues and Decision Memorandum is also accessible on the internet at https://access.trade.gov/public/FRNoticesListLayout.aspx.

Changes Since the Preliminary Results

Based on our review of the record and comments received from interested parties regarding our Preliminary Results, Commerce has made the following changes to the Preliminary Results:

- For Canfor, we corrected a ministerial error where we should have relied on the consolidated customer code but relied on a non-consolidated customer code.
- For Canfor, we updated the market prices for electricity used to value related party transactions involving steam and electricity to be based both on electricity transactions in both Alberta and British Columbia, rather than only in Alberta.
- We reduced the total cost of manufacturing for Canfor by the closure costs of its Vavenby sawmill.
- In calculating Canfor’s interest expense, we included the losses on certain derivative investments.
- For West Fraser, we corrected a ministerial error regarding the manner in which we assigned the intended byproduct offset amount to the total cost of manufacturing.
- For West Fraser, we corrected an error with how we calculated the byproduct offset.
- For West Fraser, we made an adjustment to its total cost of manufacturing to account for seed purchases from a joint venture company.
- For West Fraser, we are relying on the alternative grade group product code to ensure a more accurate comparison of comparison market and U.S. market sales.
- For West Fraser, we are determining West Fraser’s margin using the mixed method comparison method based upon the percentage of sales that passed the Cohen’s d test.

Final Results of Review

As a result of this administrative review, we are assigning the following weighted-average dumping margins to the manufacturers/exporters listed below for the period of January 1, 2019, through December 31, 2019:

<table>
<thead>
<tr>
<th>Exporter/producer</th>

Assessment Rates

Pursuant to section 751(a)(2)(A) of the Act and 19 CFR 351.212(b)(1), Commerce shall determine, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries of subject merchandise in accordance with the final results of this review.

We intend to calculate importer- (or customer-) specific assessment rates on the basis of the ratio of the total amount of antidumping duties calculated for each importer (or customer’s) examined sales and the total entered value of the sales in accordance with 19 CFR 351.212(b)(1). Where an importer- (or customer-) specific rate is zero or de minimis within the meaning of 19 CFR 351.106(c)(1), we will instruct CBP to liquidate the appropriate entries without regard to antidumping duties.

Generally, when calculating margins for non-selected respondents, Commerce looks to section 735(c)(5) of the Act for guidance, which provides instructions for calculating the all-others margin in an investigation. Section 735(c)(5)(A) of the Act provides that when calculating the all-others margin, Commerce will exclude any zero and de minimis weighted-average dumping margins, as well as any weighted-average dumping margins based on total facts available.

Accordingly, Commerce’s usual practice has been to average the margins for selected respondents, excluding margins that are zero, de minimis, or based entirely on facts available.

In this review, we calculated a weighted-average dumping margin of 17.12 percent for Canfor and 6.06 percent for West Fraser. In accordance with section 735(c)(5)(A) of the Act, Commerce assigned the weighted-average of these two calculated weighted-average dumping margins, 11.59 percent, to the non-selected companies in these final results. The rate calculated for the non-selected companies is calculated based on the simple average of the margins of the two individually examined companies.

Accordingly, we have applied a rate of 11.59 percent to the non-selected companies. A list of all non-selected companies is included in Attachment II. Commerce’s “reseller policy” will apply to entries of subject merchandise during the POR produced by companies included in these final results of review for which the reviewed companies did

1 See Certain Softwood Lumber Products from Canada: Preliminary Results of Antidumping Duty Administrative Review, 86 FR 28551 (May 27, 2021) (Preliminary Results), and accompanying Preliminary Decision Memorandum (PDM).
2 As described in the Preliminary Results PDM, we have treated Canfor Corporation, Canadian Forest Products Ltd., and Canfor Wood Products Marketing Ltd. (collectively, Canfor) as a single entity. See Preliminary Results PDM.
3 As described in the Preliminary Results PDM, we have treated West Fraser Mills Ltd., Blue Ridge Lumber Inc., Manning Forest Products Ltd., and Sundre Forest Products Inc. (collectively, West Fraser) as a single entity. See Preliminary Results PDM.
4 See Memorandum, “Issues and Decision Memorandum for the Final Results of Certain Softwood Lumber Products from Canada” (Issues and Decision Memorandum), dated concurrently with, and hereby adopted by, this notice.
5 For more information regarding the calculation of this margin, see Memorandum, “Calculation of the Rate for Non-Examined Companies,” dated concurrently with this notice.
6 Id.
not know that the merchandise they sold to the intermediary (e.g., a reseller, trading company, or exporter) was destined for the United States. In such instances, we will instruct CBP to liquidate unreviewed entries at the all-others rate if there is no rate for the intermediate company(ies) involved in the transaction.7

The final results of this administrative review shall be the basis for the assessment of antidumping duties on entries of merchandise under review and for future cash deposits of estimated duties, where applicable. Commerce intends to issue assessment instructions to CBP no earlier than 41 days after the date of publication of the final results of this review in the Federal Register. If a timely summons is filed at the U.S. Court of International Trade, the assessment instructions will direct CBP not to liquidate relevant entries until the time for parties to file a request for a statutory injunction has expired (i.e., within 90 days of publication).

Cash Deposit Requirements

The following cash deposit requirements will be effective for all shipments of subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of these final results, as provided by section 751(a)(2)(C) of the Act: (1) The cash deposit rate for the companies under review will be equal to the weighted-average dumping margin listed above in the “Final Results of Review” section; (2) for merchandise exported by producers or exporters not covered in this review but covered in a previously completed segment of this proceeding, the cash deposit rate will continue to be the company-specific rate published in the final results for the most recent period in which that producer or exporter participated; (3) if the exporter is not a firm covered in this review or in any previous segment of this proceeding, but the producer is, then the cash deposit rate will be that established for the producer of the merchandise in these final results of review or in the final results for the most recent period in which that producer participated; and (4) if neither the exporter nor the producer is a firm covered in this review or in any previously completed segment of this proceeding, then the cash deposit rate will be 6.58 percent ad valorem, the all-others rate established in the less than fair value investigation.8

These cash deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in Commerce’s presumption that reimbursement of antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

Notification Regarding Administrative Protective Order

This notice is the only reminder to parties subject to the administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under the APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return or destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and the terms of an APO is a violation subject to sanction.

Notification to Interested Parties

We are issuing and publishing these final results and this notice in accordance with sections 751(a)(1) and 777(i)(1) of the Act and 19 CFR 351.213(b).

Multilayered Wood Flooring From the People’s Republic of China: Notice of Initiation of Changed Circumstances Review

DEPARTMENT OF COMMERCE
International Trade Administration

Multilayered Wood Flooring From the People’s Republic of China: Notice of Initiation of Changed Circumstances Review

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: Based on a request from Zhejiang Yuhua Timber Co. Ltd. (Yuhua), A-Timber Flooring Company Limited (A-Timber) and Mullican Flooring Co. (Mullican) (collectively, Yuhua et al.), the Department of Commerce (Commerce) is initiating a changed circumstances review (CCR) of the antidumping duty (AD) order on multilayered wood flooring (MLWF), from the People’s Republic of China (China).

SUPPLEMENTARY INFORMATION:

Background

On December 8, 2011, Commerce published the AD order on MLWF from China. Under the Order, merchandise produced and exported by Yuhua has been excluded and is not subject to antidumping duty cash deposits. On September 1, 2021, Yuhua, A-Timber, and Mullican, respectively a producer, exporter, and importer of the subject merchandise, requested that Commerce initiate an expedited CCR, pursuant to section 751(b)(1) of the Tariff Act of 1930, as amended (the Act), 19 CFR 351.216, and 19 CFR 251.221(c)(3). Specifically, Yuhua et al. request that Commerce clarify that MLWF produced by Yuhua and sold through A-Timber be considered as merchandise which is “produced and exported” by Yuhua, and, thus, excluded from the Order. Yuhua et al. asserts that this clarification is necessary because U.S. Customs and Border Protection has only as of late 2020 begun requiring the posting of cash deposits and the classification of such merchandise as “Type 3” entries subject to antidumping duties under the Order. On October 14, 2021, the American Manufacturers of Multilayered Wood Flooring (the petitioner) filed a letter in support of Yuhua et al.’s CCR request. On October 15, 2021, Commerce extended the deadline to initiate this CCR.

Scope of the Order

Multilayered wood flooring is composed of an assembly of two or more layers or plies of wood veneer(s) in combination with a core. The several layers, along with the core, are glued or otherwise bonded together to form a final assembled product. Multilayered wood flooring is often referred to by other terms, e.g., “engineered wood flooring” or “plywood flooring.” Regardless of the particular terminology, all products that meet the description set forth herein are intended for inclusion within the definition of subject merchandise. All multilayered wood flooring is included within the definition of subject merchandise, without regard to: Dimension (overall thickness, thickness of face ply, thickness of back ply, thickness of core, and thickness of inner plies; width; and length); wood species used for the face, back and inner veneers; core composition; and face grade. Multilayered wood flooring included within the definition of subject merchandise may be unfinished (i.e., without a finally finished surface to protect the face veneer from wear and tear) and/or prefinished (i.e., a coating applied to the face veneer, including, but not exclusively, oil or oil-modified or water-based polyurethanes, ultraviolet light cured polyurethanes, wax, epoxy-ester finishes, moisture-cured urethanes and acid curing formaldehyde finishes). The veneers may be also soaked in an acrylic-impregnated finish. All multilayered wood flooring is included within the definition of subject merchandise regardless of whether the face (or back) of the product is smooth, wire brushed, distressed by any variety of methods, or hand-scraped. In addition, all multilayered wood flooring is included within the definition of subject merchandise regardless of whether or not it is manufactured with any interlocking or connecting mechanism (for example, tongue-and-groove construction or locking joints). All multilayered wood flooring is included within the definition of the subject merchandise regardless of whether the product meets a particular industry or similar standard.

The core of multilayered wood flooring may be composed of a range of materials, including but not limited to hardwood or softwood veneer, particleboard, medium-density fiberboard, high density fiberboard (HDF), stone and/or plastic composite, or strips of lumber placed edge-to-edge.

\(^2\) A “veneer” is a thin slice of wood, rotary cut, sliced or sawed from a log, bolt or flitch. Veneer is referred to as a ply when assembled.

\(^4\) Commerce Interpretive Note: Commerce interprets this language to refer to wood flooring products with a minimum of three layers.
