**Subject:** Support for Old Growth Logging In BC

Good morning,

Please find attached a list of **111 persons who SUPPORT OLD GROWTH LOGGING IN BC**. Please add all names on our list and to the official registrar so we may continue to harvest this resource for years to come.

As per the ***“Guidelines for Written Submissions”*** and as shown on the header of our submission, persons whom have signed our petition either work directly for Wahkash Contracting Ltd., R&J Road Building Ltd., Bonanza Lake Logging Ltd., and/or are suppliers that work directly with our companies and have direct ties to the harvesting of old growth forests.

Should the harvesting of old growth timber be terminated, the majority (in excess of 95%) of those listed on the above petition would/**will become unemployed** with the companies highlighted above and the companies themselves would be uneconomical to operate without the harvest of old growth timber and would in all likelihood cease to exist/be forced to close.

We truly hope that the government will find the strength to continue to support the forest industry which built this great province of ours and continues to provide environmentally sustainable jobs and security for those who are directly and indirectly employed in the harvest of old growth.

Should you have any questions, please feel free to contact Dorian Uzzell or myself via email. Thank you for the opportunity to provide input

Best Regards,

Kevin Kenny, RPF, EIT
