Subject:

Hi I am a bc logger and have been for 30 yrs I am 50 now and the regrowth i see from the places i worked in my 20's is amazing.....bc has enough parks we need a working forest out communities depend on it!!!!

A new and young tree uses more carbon than a old and dying one.

So please use common sense other than environmental fear mongering

Thanks for your time.

A concerned bc resident and tax payer.
