Subject: Stop the harvest

To the Panel,

The current continued harvest of Old Growth trees from our forests is clearly unsustainable if these delicate and rare ecosystems are to survive.

Please do the responsible thing and cease all logging in Old Growth forests immediately.

The BC government is the guardian of these forests for all of British Columbians, and we are witnessing their inaction, slow policy making and continued harvest of our treasured trees. Please, put a stop to the logging immediately before it is too late.

With deep concern,
Rachel Anderson RMT
